

How do people  
learn things in  
everyday life?

# How do people learn things in everyday life?

- by trial and error
- By following the instruction
- By sitting next to someone who can tell you what to do

## **An experiential learning cycle**

The process of learning often involves five steps (see Figure 1.3):

- 1 doing something;
- 2 recalling what happened;
- 3 reflecting on that;
- 4 drawing conclusions from the reflection;
- 5 using those conclusions to inform and prepare for future practical experience.

# What is the difference between Teaching and Learning?

## Period:

- Teaching does not take place throughout a person's life.
- Learning is a process that takes place throughout the lifespan of an individual.

# What is the difference between Teaching and Learning?

Effort:

- In most occasions, teaching is *a conscious effort*.
- Learning can be both *a conscious and an unconscious effort*.

# What is the difference between Teaching and Learning?

## Motivation:

- For learning, motivation can come from within the individual or from external factors, such as teaching by another individual.

Your expectations of the teacher's role?  
What can she/he do to assist your learning?
