

Coronavirus

- Symptoms can include:
- Fever
- Cough
- Shortness of breath

Protecting Yourself Against Coronavirus

Wash your hands with soap and water to minimize your infection risk.

as often as possible.

Keep your hands away from your eyes, nose, and mouth. You may come into contact with the coronavirus on a surface, like a doorknob or countertop.

- **Keep your hands away from your eyes, nose, and mouth.** You may come into contact with the coronavirus on a surface, like a doorknob or countertop.

Stay away from people who are coughing or sneezing. Since coronavirus is a respiratory infection, coughing and sneezing are common symptoms

Don't shake hands with people, whether they show symptoms or not.

wikiHow

Disinfect high-touch surfaces daily using a product that kills viruses.

Try not to worry too much if you're not truly at risk.
