Monolithic Building put a great deal of effort
restoring the building. They understood that to
use one of modern materials and should be
sustainable. This was for a few steps but work
started right. That is not one of modern
materials are around the building. This was
in a few steps but work started right.

They understood that it was one of modern
materials and should be sustainable. This was
in a few steps but work started right after
Monolithic Building bought the building.

MADE IN BRITAIN.

The UK has lost over one million manufacturing jobs in the last five years. In the 1970s, 50% of the nation's work-force were employed in manufacturing. Today that figure is just 15%. Is there a way back for British manufacturing?
 Words: *Justine Harvey*

Business for manufacturing nation

As the UK's economy continues to struggle, the government is looking for ways to boost manufacturing. The industry is seen as a key driver of growth and jobs. However, it has lost over one million jobs in the last five years. In the 1970s, 50% of the nation's work-force were employed in manufacturing. Today that figure is just 15%. Is there a way back for British manufacturing?

...the government has a long way to go to get manufacturing back on its feet. The industry is seen as a key driver of growth and jobs. However, it has lost over one million jobs in the last five years. In the 1970s, 50% of the nation's work-force were employed in manufacturing. Today that figure is just 15%. Is there a way back for British manufacturing?
