# Task 1

One day two cats  
Spoke about their flats.  
That they've got a lot of rats  
And that rats wear a lot of hats.

# Task 2,3

## Brothers-Verbs

Once there lived two brothers: Can and Can't. Can was very hard working and Can't was very lazy. Can could do everything, but Can't could do nothing.

One day they went to the mountains. The mountains were very high. Can said: "I can!" and climbed a very high mountain easily, Can't said: "I can't!" and he stayed down.

Then Can helped his brother Can't to climb the mountain. They were happy, but Can didn't want to take Can't with him next time.

The End...

# Task 4

1. After I finished all tasks I was in a very good mood.
2. I can praise myself for a work.
3. - I think my work will be the best. And I will win first prize.

My mother promised me to buy (lego starwars, buy the way)  
- so I need your answer fast.

4. I think task 2 was the most difficult because it wasn't easy to make up a story, so my sisters-twins helped me.
5. I worked hard.
6. I think all tasks were useful because they develop memory, intellection and fantasy.
