The screenshot displays the SBTech sports betting interface for a match between Torino and Atalanta in Serie A. The interface is divided into several sections: a top navigation bar with 'Pre-Match', 'Live', 'Manage', 'History', and 'Racing' tabs; a left sidebar with a search bar and a list of sports and leagues; a central area for the selected match, and a right sidebar with various betting controls.

In the central area, a 'Game Settings' modal window is open for the match. The modal title is 'Torino vs Atalanta'. It contains a section for 'Invalid Odds' with a 'Show' button highlighted by a yellow box. Below this, there are options for 'Max exposure per customer settings', including checkboxes for 'Enable max customer exposure per event' and 'Exclude VIP's (Custom Level #2)', and input fields for 'Single' and 'Combo' bets.

A green arrow points from the 'Settings panel' gear icon in the bottom right corner of the match area to the 'Invalid Odds' button in the modal. A white text box with a yellow border contains the following instructions:
