

My name's Hannah and I'm twenty years old. I've got a daughter  <sup>1</sup>  
Nicole. She's  <sup>2</sup> three now. I live in a small flat  <sup>3</sup> the city  
centre. It isn't a nice place to live. It's very noisy and dirty and there is  
 <sup>4</sup> for Nicole to play.

I want to move out of the city and live in the countryside. But it's very expensive to  
live there. I will need to earn  <sup>5</sup> money to buy a house. There aren't  
 <sup>6</sup> flats for sale in the small villages near here. I will need to buy a car  
 <sup>7</sup>.

That's why I study at college. I'm studying Business. While I am at college, my  
mum looks  <sup>8</sup> Nicole. My mum really likes spending time with her. In  
the evening, I work as a cleaner. I clean people's houses. Nicole comes with me.  
She plays  <sup>9</sup> with her toys while I work.

## Agriculture in Australia

Traditionally, Australia was [ ] for producing wheat and wool, but times have changed in [ ] years, with many farmers [ ] to be more diverse in their crop and livestock range. It is now quite common to see farms with more exotic fruit and vegetables. Farmers are [ ] to sell their produce locally nowadays, but rather to the factories in the cities. As a result, farms are now large-scale [ ] where thousands of tonnes of crops are cultivated. Another aspect that is different nowadays is [ ]. In the past, farmers would just flood the fields but now it is common to see sprinkler [ ] everywhere. This means that more water is conserved, which has been helpful with the drought that has severely impacted the [ ] of the farms in the southern states of the country.
