# Dental clinics

**PREPARED: BAYAKENOVA ZHAMAL**  
**CLASS 2-009**  
**CHECKED: DASHKINA T.G**

# In the Dental clinics. At the Dentist`s.

- Doctor: Good morning. What can I do for you? What troubles do you have?
- Patient: I have a toothache on the right upper side. It`s troubling me day and night.

- D: Sit in the chair. How long have you had it?
- P: For about week. I have a filling that is loose. I'm afraid it is about to drop out.

- D: Let me take a look at it. Open your mouth wide, please. I will take an X-ray.
- P: Good.
- D: There's a rather deep cavity on the right side of the tooth.

- P: Will you have to pull the tooth?
- D: No .I hope to save your tooth. I will give you an injection of Lidocaine.
- P: Okay.

- D: Now I can drill the tooth. You don't feel any pain, do you?
- P: No, I don't.

- 
- D:I'd suggest that -besides the usual filling-we put a crown on your tooth. That can save it.I'll put a temporary crown there today.The permanent crown will be ready in about 10 days.Then you'll come back.Is it all right with you?
  - P:If you think it's the only way to save the tooth,then go ahead.I realize a crown is rather expensive.But what's to be done?

- D:Okay. Don't eat or drink anything for 2 hours. After having a meal, rinse out your mouth with water. Do not eat too many sugary foods.

If you have a bad toothache, take a painkiller.

P:Thank you,doctor.

# Past Simple (простое прошедшее)
