

**VERY OFTEN WE ARE TOLD
ABOUT THE DANGERS OF
ALCOHOL, BUT ALMOST NO
ONE TALKS ABOUT THE PROS.
TODAY I WANT TO TALK
ABOUT THE FUN AND
HEALTHFUL MOMENTS
ASSOCIATED WITH DRINKING.**

LET'S START WITH HEALTH

EVERYONE SHOULD
KNOW THAT
DRINKING
ALCOHOL IN
STANDARD
AMOUNTS IS GOOD
FOR HEALTH, I
WILL PRESENT YOU
A COUPLE OF
USEFUL TIPS FOR
HEALTH PROBLEMS

- 1) Rum treats a throat.
- 2) Red wine helps with high blood pressure.
- 3) Tequila regulates the level of cholesterol.
- 4) Whiskey helps to lose weight.
- 5) Brandy slows down aging.
- 6) Champagne supports heart health.
- 7) Vodka cures tooth decay.
- 8) Beer promotes brain activity.

AND NOW THE FUN PART

FUN MOMENTS

Most often, alcohol is the best friend at every holiday and party. We celebrate New Year with champagne, Easter with wine and meet friends with whiskey and all.

Usually we take with us a couple of bottles of something, when we are called to somewhere to relax in the company of friends.

We can choose any place to stay, but there are special places for this: Bar, Club, Pub. In such places we can offer a wide selection of drinks.

A bartender-man who knows the composition of drinks and their properties works to help in choosing a drink.

He can surprise you with delicious cocktails that will relax you or blow your brain.

BUT REMEMBER,
NO MATTER HOW
FUNNY THE
PARTIES SEEM
AND NO MATTER
HOW TASTY THE
ALCOHOL IS, YOU
SHOULD NOT
ABUSE IT.

THANKS FOR YOUR ATTENTION
