Buy American!

Strength – Investing

”Why are countries with low levels of investment willing to send this relatively scarce resource to a capital-abundant economy instead of investing in their own countries?”

“United States is attractive place for investment.”

Strength – Investing

Table 1: Total Return on Investment Positions (in percent)

	Includes Effect of Exchange Rate Movements		Excludes Effect of Exchange Rate Movements	
	U.S. Assets Abroad	Foreign Assets in the United States	U.S. Assets Abroad	Foreign Assets in the United States
2001	-7.9	-2.6	-5.8	-2.4

Strength – Dollar

Weakness

Weakness

Foreign creditors have played a key role in financing America's debt.

The Government of China promotes the internationalization of their currency .

Weakness – Foreign creditors

The largest overseas creditor of US dollar is China

that have about \$1.3 trillion of US government debt.

It is too large volume, so the US is vulnerable to China's choice about how to dealing with US dollar

Weakness – RMB

China is aiming for its currency to become part of the Special Drawing Right (SDR), the International Monetary Fund's composite currency unit.

Weakness – RMB

The strategy of China is to centralize in gradualism. An initial stage of the diplomatic policies were concentrated in the Asia Pacific region.

However, in a second stage, **it became necessary to gain the support of the Western society.**

For these reason, the President Xi Jinping visited London in last October.

To sum up

Thank you
