In November we got two snails.
They were very small.

We built them a house .

*The House

- a glass jar

- soil

- decorations

We decorated the house.

- * We call them Turbo and Bublik. Turbo is dark and it always moves. Bublik is light and it always eats.

* Bublik and Turbo grow fast.

- * In November Timur took care of them.
- * In December Artym fed them and cleaned their house.
- * In January Dasha gave them cucumber and water.
- * In February Sasha gave them carrot but they didn't like it. They like cucumber and salad.
- * In March Artem washed their glass house , gave them vegetables.

* We are going to take care of them!!!
