Kinds of activities:

- professional and exchange activity on securities;
- organizing financial markets;
- technical protection of information;
- activity in the sphere of communication.

JSC "BCSE" is serving three main segments of the organized financial market of the Republic of Belarus:

Foreign Exchange Market – stock exchange operations in foreign currencies

Stock Market – stock exchange transactions in equities and bonds, including government securities

Futures market – exchange operations in futures

The FOREX market performs a number of important economic functions:

- **formation of the current market rate of Belarusian ruble to foreign currencies;**
- **setting the official rate of Belarusian ruble upon the exchange trading results;**
- **providing for mandatory sale of foreign currency;**
- **maintaining liquidity of the currency market.**

Currently, the stock market can be circulated:

- government long-term bonds of the Republic of Belarus
- bonds of local executive and administrative bodies
- shares of open joint-stock companies
- bonds issued by banks
- bonds of legal entities
- exchange bonds

Futures market is represented by futures contracts:

- **on euro to U.S. dollar, set by the European Central Bank;**
- **on U.S. dollar to Belarusian ruble;**
- **on euro to Belarusian ruble;**
- **on Russian ruble to Belarusian ruble.**
