## YOUNG MUSICIANS

### FRED

My parents play in a band so there is always music in our house. I started playing the piano when I was six after I heard a very young girl play at a concert. She was just five years old but she was as good as an adult professional pianist. My first concert was at the age of nine. I'll never forget how scared I was but once I was at the piano I relaxed and just thought about the music.

### OLGA

My parents are both doctors but they really enjoy listening to music. My mother played the piano when she was young so she asked me if I wanted to learn to play something. I chose the violin but it isn't easy. Sometimes I get angry when I can't play the right way. I don't know if I'll keep playing it: I also play tennis three times a week and it's a bit tiring doing everything, so I guess I'll have to choose.

### BRIAN

I've always loved music since I was a little child: my father told me I started dancing as soon as I heard classical music on the radio. That's why when I was four I started piano lessons. However, my teacher wasn't very friendly. I sometimes got bored with the exercises he gave me, so a year later I asked my parents if I could have singing lessons instead. I really enjoy singing: I often sing with my brother, who plays the guitar. It's so exciting!

#### MY ORGANIC GARDEN

*by Larry Davidson, age 13*

Last year my family and I started to make our own fruit and vegetable garden. We wanted to do something for our planet so we decided to grow our own plants organically. This means that we only use natural ways to look after them. For example, we put our old fruit and vegetables on the ground where the plants grow, but other people just throw all their old food in the bin. Also, now we grow our own fruit and vegetables, so we don't need to buy them.

Having an organic garden is clearly a healthier option because the fruit and vegetables you grow will be safe for people and animals, too. We had to work very hard. At first, we were afraid because we might not have enough time to do everything, but then we realised that each of us could look after the garden on different days.

To make our garden we used a large wooden box which was about the size of our kitchen table. We cleaned it and made 20 holes at the bottom for the water to drain out. We covered the holes with some little stones and the soil where the plants could grow.

Then we planted very tiny plants and watered them every day. On the left we planted tomatoes, onions, carrots and potatoes, while on the right there were a few melons and strawberries. In about a month we picked our first fruits and vegetables. We were so excited when we had them for dinner!

14 Why did Larry and his family build an organic garden?

- A to save money on vegetables and fruit
- B to help the natural world
- C to stop making so much rubbish

15 How did Larry feel in the beginning?

- A tired because he spent the whole day on the garden
- B lucky because he could eat a lot of healthy food
- C worried because it could be too much work

16 Who looked after the garden?

- A only Larry
- B only Larry's family
- C both Larry and his family

17 How big was the box Larry used for the garden?

- A smaller than a table
- B as large as a table
- C larger than a table

18 What does Larry say about the fruits and vegetables he planted?

- A The vegetables and fruit were in different parts.
- B The plants were very small, but delicious.
- C They first ate the fruit, then the vegetables.
