

Чероки

Чероки:Cherokee, a native people located in North America.The Cherokee once lived on both slopes of the southern Appalachians in the area of the present states of Tennessee and North Carolina.Everything that is known about Cherokee society and culture before the 19th century is derived from the records of the American writer John Howard Payne. His notes describe the tribal representatives' account of the traditional structure of society, in which a "white" group of older people represented seven clans. According to Payne, these people were responsible for religious activities, such as healing, purification and prayers, and places in this group were inherited

Чокто

- Чокто:Choctaw, sometimes wrong Choctaw, English Choctaw. The Choctaw, self-named Chahta, is an indigenous people of the United States, originally living in the southeast. The Choctaw language belongs to the Muscogee family.

Пуэбло

Пуэбло: Pueblo (from Spanish pueblo - 1) “people”, 2) “village”) is a group of Indian peoples of the Southwestern United States. Number - 32 thousand people (1987). They live in the states of Arizona and New Mexico, between the Rio Grande and Colorado rivers. They belong to the American race. Religion - Protestantism and Catholicism with traditional cults, although back in the 18th century the Pueblos resisted the introduction of Christianity with exceptional fury - in particular, they destroyed the fortified settlement of Avatovi, where their fellow tribesmen who converted to Christianity lived, killing all the men who were there
