Counterfeit money

Interesting facts about money

- 1. U.S. paper money is not paper. It's cloth. In Ben Franklin's day, people repaired torn bills with a needle and thread.**
- 2. Sailors used to pass the time by banging on the edge of coins with the heel of a spoon, then cutting the middle out of the thickened rims to make rings for their loved ones.**
- 3. Pennies buried in a garden will repel slugs, which get electric shocks from touching copper and zinc.**

**Thank you for your
attention!**
