

# SOW 17 29\_1\_2019

- Table format report
- Small UI

# Add an option to Create a report in table format – relevant only for multi issues reports (single issue report - no change)

Add New  
"arrow"  
– like in  
feedback

"Table" report  
– next slide

Same  
report as  
today

# Table Report from app

Subject: Suburb B Project report

Report creator: Sam GC ,Pulser Construction Ff

Date: 07/01/2019 at 9:08 AM

Heading like today (no change) but on same page

#	Description (most place of table for this column)	Assigned to	Due date	Images
	<b>[Category name]</b> – text.... if no description then put only category (we always have a category)	If no one then leave empty	If no one then leave empty	Here you put a list of <u>links</u> – not the images (same high resolution links that we use today) – each link in line. If no images then leave empty
	<b>Windows</b> – Please fix the right corner			
	<b>Doors</b> – not reaching floor			

# Images should come in a separate page at the bottom of the table report

Date and hour of photo

<p>#3 יונב מיקי 26.07.16 9:03</p> 	<p>#2 יונב מיקי 26.07.16 9:03</p>  <p>חדר שרות</p>	<p>#1 יונב מיקי 26.07.16 9:03</p>  <p>מטבח</p>
<p>#6 יונב מיקי 26.07.16 9:04</p> 	<p>#5 יונב מיקי 26.07.16 9:04</p>  <p>הזנת מים ראשי לדוד</p>	<p>#4 יונב מיקי 26.07.16 9:04</p> 
<p>#9 יונב מיקי 26.07.16 9:04</p> 	<p>#8 יונב מיקי 26.07.16 9:04</p> 	<p>#7 יונב מיקי 26.07.16 9:04</p> 

Location, only if available

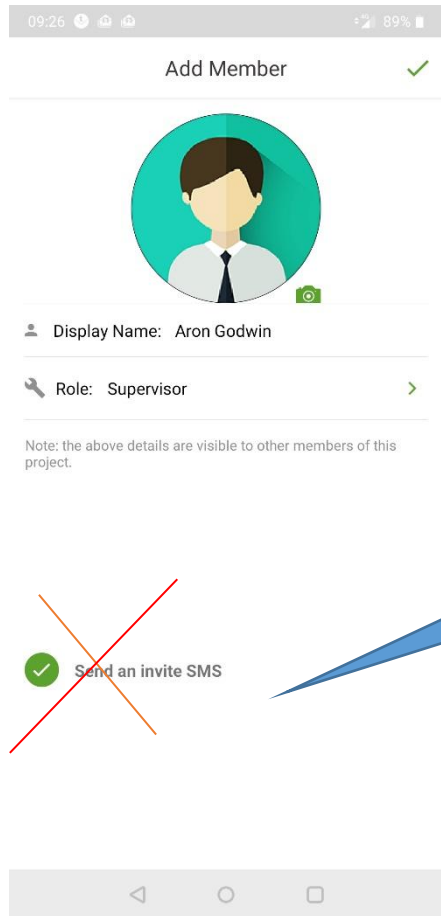

Photo belongs to issue #

Not needed for now

# Add Mixpanel event

- Table format – TableReport
- Previous format - DetailReport

1) Omit SMS permission (Android and iOS) and 2) make the below change in the place we use it

Delete this option.

Next screen and all the rest with no difference

9:51 AM 13-Jan-19

- Select blueprint from issue creation (Android) – you select a file and then it opens – please make the more simple solution:
- 1) disable selection or
- 2) stop the selection process when a file is selected and change the blueprint name (currently it opens the file for annotations and when you finish operation nothing happens)

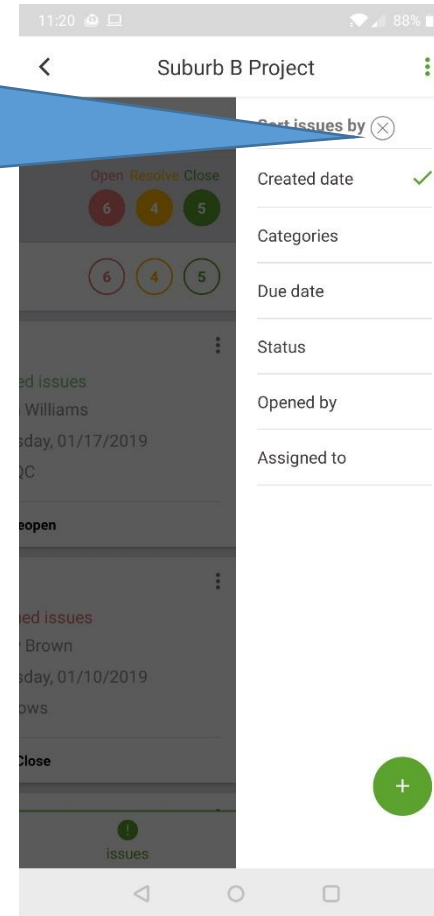

# Small UI

X too close to text and hard to press

X too close to text and hard to press

ios crash – I installed app on iphone 5, created first project, took project photo and then app crashed. (then I opened app again and created project and no problem)

The screenshot shows an email client interface with a message from Bugsnag. The message content is as follows:

Wed 23-Jan-19 4:37 PM  
Bugsnag <notifications@bugsnag.com>  
[Pulser] NSGenericException in \_\_cxa\_throw

To: Gideon Ziegelman

**NSGenericException \_\_cxa\_throw**  
\*\*\* Collection <CALayerArray: 0x280b310e0> was mutated while being enumerated.  
Jan 23rd 14:37:01 utc

Pulser:0 __cxa_throw
Pulser:0 __cxa_throw
Pulser:0 __cxa_throw
Pulser:0 __cxa_throw
Pulser:0 __mh_execute_header

Release stage production

At the bottom of the email client, there is a breadcrumb: Bugsnag | [Pulser] TypeError in main.jsbundle:863

The Windows taskbar at the bottom shows the time as 9:25 AM on 24-Jan-19, with a battery level of 85% and various system icons.

Look into PDF we could not open (sent to Timur)
