

A DESIGN IS FURNITURE

История мебель

History of furniture : furniture styles and interiors from times of Ancient Egypt to our days. Furniture, as inalienable part of design, also changed in time. Thus there was either modification of already existent elements of furniture or birth something span-new. Most ancient from the well-known to us standards of furniture are the Egyptian small boxes from an ebony with encrustation from malachite, ivory and turquoise. Their wreckages were found in tsar's tombs of the III century to our era.
