There are six of us in my family: father, mother, grandmother, me and younger sisters. My father's name is Vitaly, he is a sales representative. My mother's name is Marina, she is a senior kindergarten teacher.

My younger sisters name is Daria and anisiya they learns in the second classroom. I always help them do their homework and look after them while my mom and dad are at work. We watch cartoons.

If we have free time, we always spend it together. We love going to the movies and walking in the street. In summer we go to the river to swim or go to the forest for barbecue

**My sisters and I always help our parents.
We wash dishes and sweep the floor.
Besides, we clean our own rooms.**

My parents are the best! Our family is very united and happy.
