Comparatives

We use comparative adjectives to compare two people or things.

For short adjectives we add -er (than). Be careful of spelling.	big	bigger	The new monitor was bigger than the old monitor.
	fast	faster	Your processor is faster than mine.
	easy	easier	It's easier to use than the other one.
For long adjectives we use more/less (than).	difficult	more/less difficult	This version is more difficult to use than the old version.
	expensive	more/less expensive	His computer is less expensive than hers.
	reliable	more/less reliable	I think you should buy that CPU. It is more reliable than the one you have.
Some comparatives are irregular.	bad	worse	That screen resolution is much worse than before!
