The image shows a close-up of a dark, textured surface, likely volcanic rock. The surface is covered in a dense, irregular pattern of small, reddish-brown, crystalline or mineral inclusions. These inclusions are set against a darker, almost black matrix. The overall appearance is rough and granular, with some areas appearing more saturated with the reddish material than others. The lighting is somewhat uneven, highlighting the texture and the contrast between the dark base and the reddish coating.

The image shows a close-up of a dark, porous volcanic rock surface. The rock is covered in a complex, interconnected network of golden-brown mineral deposits, likely zeolites, which have formed in the pores and crevices of the rock. The overall appearance is highly textured and intricate, with the dark grey or black rock matrix contrasting sharply with the bright, metallic-looking mineral coating.

The image shows a close-up, high-resolution view of crocodile skin. The texture is highly detailed, showing the characteristic diamond-shaped scales. The color is a dark, almost black charcoal, but it has a metallic sheen, particularly in the recessed areas of the scales, which catch the light and create a shimmering, silver-like effect. This is the 'silver patina' mentioned in the text. The lighting is directional, coming from the upper left, which emphasizes the three-dimensional quality of the scales.

The image shows a close-up of a dark, heavily textured wooden surface. The wood grain is prominent, with vertical lines and some irregular, wavy patterns. The color is a deep, dark brown or black, with some lighter, reddish-brown highlights where the wood grain is more pronounced. The texture appears rough and aged. In the center of the image, there is a line of yellow text with a black outline, which reads "Дерево черное золото с медью".
