thrilling

brilliant

excellent

dull

awful

tragic

hilarious

gripping

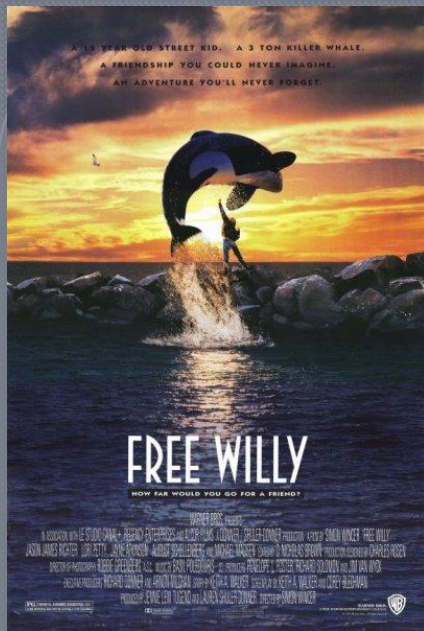

depressing

moving

dreadful

predictable

superb

Read the following film review. Choose the necessary information.

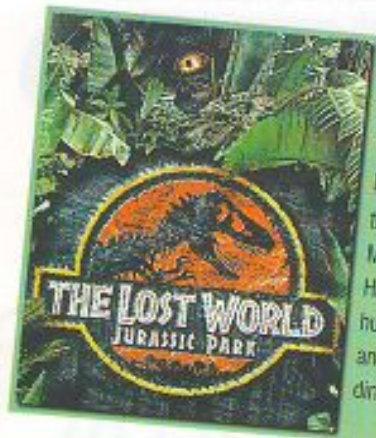

Free Willy, directed by Simon Wincer, is a fascinating and moving adventure. It is set on the west coast of North America, The film is about the relationship between a boy and a whale, called Willy. Jason James Richer plays Jesse, a young street child who finds out the meaning of love and friendship.

Jesse first meets Willy in the sea park where the whale is kept. They become good friends as they have both been separated from their families. As the story develops Jesse becomes so fond of Willy that he decides to try and free him.

All the actors, especially Lori Petty and Michael Madsen are excellent. The film is filled with suspense and emotion. The scenes involving Jesse and Willy teach us how close animals and human beings can be to each other.

This is a wonderful film for the whole family. Don't miss it as it will change the way you see life and relationship forever.
