Despite ... and Having ...

You can also use these two structures to join together two changes. Make sure you study how to use them carefully. Don't forget: if you use the *Having* structure, you need the past participle (e.g. *Having fallen ...*).

- **Despite + noun / noun phrase / verb+ing**

Despite falling sharply to just above £40,000, the figure then rose in 2010.

Despite a sharp fall to just above £40,000, the figure then rose in 2010.

- **Having + past participle**

Having remained stable at £ 55,000, income then rose sharply in 2008.

- 1 There was a steady decline to £80,000, and then income recovered to £90,000 in 2004. (*Despite ...*)
- 2 Earnings dropped sharply to just over £60,000, but then rose slightly. (*Having ...*)

Summarise the information by selecting and reporting the main features and making comparisons where relevant.

- 1 With *started* and *finished*, use^{at}
Example: *Income started £55,000.*
- 2 With increases or decreases, use
Example: *There was a sharp rise £70,000.*
- 3 With *remained stable* and *levelled off*, use
- 4 With *peaked*, use
- 5 To describe how much something increases or decreases, use
Example: *The figure went up around £30,000.*
- 6 To describe the range of fluctuation, use
Example: *Earnings fluctuated £80,000 and £90,000.*

Read this paragraph and choose the correct prepositions.

As regards Robbie's Bakery, income started **1** *to / at* £55,000 in 2000 and remained stable **2** *at / to* this figure **3** *during / until* 2005. At this point, there was a sharp rise **4** *to / at* £70,000. Between 2007 and 2008, the figure went up **5** *to / by* around £30,000, **6** *to / from* £70,000 **7** *at / to* nearly £100,000. Finally, income grew gradually, and peaked **8** *at / to* £105,000 in 2010. If we look at Lovely Loaves, earnings fluctuated **9** *between / at* £80,000 and £90,000 in the first five years, and then there was a sharp fall **10** *to / at* £40,000 in 2008. Finally, the figure levelled off **11** *to / at* £40,000, and finished **12** *to / at* the same figure.

Add the missing prepositions to this paragraph.

If we look at Bernie's Buns, income started £20,000 in 2000, and then there was a slight rise £25,000 in 2001. At this point, the figure fell back just over £20,000, followed by a slight increase just under £40,000. Earnings then levelled off £39,000, and then fell marginally £38,000. Income then rose £23,000, £38,000 £61,000. In the next two years, there was a gradual rise around £62,000, and then the figure peaked around £65,000.

To take your Task 1 essay to the next level, try to comment on the data, rather than just give a list of numbers. Add one or two comments to show that you understand and can interpret the graph. Here are some ways you can do this.

- Compare the different parts of the graph, using a relative clause:
The income of Lovely Loaves fell significantly to around £40,000 in 2008, which meant that it earned far less than the other bakeries.
- Comment on the peak:
There was a considerable rise in the takings of Robbie's Bakery in the last two years to £105,000, this figure being the peak level of income during the whole period.
- Add an extra verb to give emphasis:
The income of Robbie's Bakery rose sharply in 2008, rocketing to just under £100,000.
- Add a superlative:
Lovely Loaves earned just over £80,000 in 2000. This meant that it had the highest income of the three bakeries in that year.
- Group data into a period of time:
There was a significant fluctuation in the income of Lovely Loaves in the first half of the decade.
