

Системы дистанционного обучения

www.claroline.net

<http://claroline-lms.ru>

eLearning и eWorking

- Open Source (PHP and MySQL)
- GNU/Linux, Mac OS, Microsoft Windows (и *BCD ;))
- Stable release – 1.11.10 / 28 février 2014
- 35 языков
- Школы
- Университеты
- Тренинговые центры

Функции

- Указать описание курса
- Опубликовать документы в любом формате (текст, PDF, HTML, видео...)
- Администрировать публичные и приватные форумы
- Разрабатывать пути обучения
- Объединять студентов в группы

Функции

- Подготавливать для обучающихся онлайн упражнения (задания)
- Управлять повесткой дня с задачами и сроками выполнения
- Публиковать анонсы (так же и по эл.почте)
- Вывешивать онлайн информацию о текущих заданиях
- Просматривать статистику активности пользователей
- Использовать технологию wiki для совместного написания документов

Примеры: домашняя страница

The screenshot shows the CLAROLINE.NET website home page. The header features the logo and tagline 'Let's build knowledge together', along with navigation links for 'About us', 'Contact', and 'Search'. A sidebar on the left contains a menu with items like 'Home', 'News', 'Demo', 'Download', 'Documentation', 'Forum', 'Collaborate', 'Community', 'Consortium', and 'Services'. The main content area is titled 'Home' and includes a 'Download' section with a 'Latest release (1.9.6) Extensions' button and a 'Support the project' section with a 'Donate to Claroline' button. There are also sections for 'Events' (ACCU 2010) and 'Project news' (Claroline 1.9.6 released). The footer contains logos for UNESCO and Accu2010.

► [Main page](#)

Transport consumes more energy than industry: 35 % of total consumption 60 % of which is from oil importation! However, it is mainly an urban problem: 50 % of energy is consumed in towns. Moreover, 96% of transport energy comes from oil products, which are the main pollutants. This dependence is in danger of posing serious long-term problems by making transport dependent on a fragile and production that is in short supply.
