

Project amazing creatures.

Prepared by: Pavel Sharendo

Me

- Hello, my name's Pasha. I'm 11 years old and I'm from Russia. I like animals very much, but my favourite amazing creature is the monkey.

- The monkey is a funny amazing creature. It's brown. It has got a long, strong tail. It can climb from tree to tree very well. It can't fly at the sky. It likes eating bananas. The monkey climbs trees. We can see monkeys at the zoo. But there isn't a zoo in my town. And there aren't any monkeys in the forest. And I go to Moscow zoo every year. After 10 years want to go in London zoo. I speak English well, because my English teacher is Olga Mikhailovna. I think she is the best English teacher. And I can prepare contactt zoo.

- It is an excellent way to spend your free time. Believe me I go there every year, and always have a fantastic time, but there are some rules: don't feed animals, don't scare animals and be happy. And you can find more information on www.contactzoo.ru
