

H e l l o,
My name is Aliya Makhmutova..

I a m a s c h o o l l e a v e r
2020

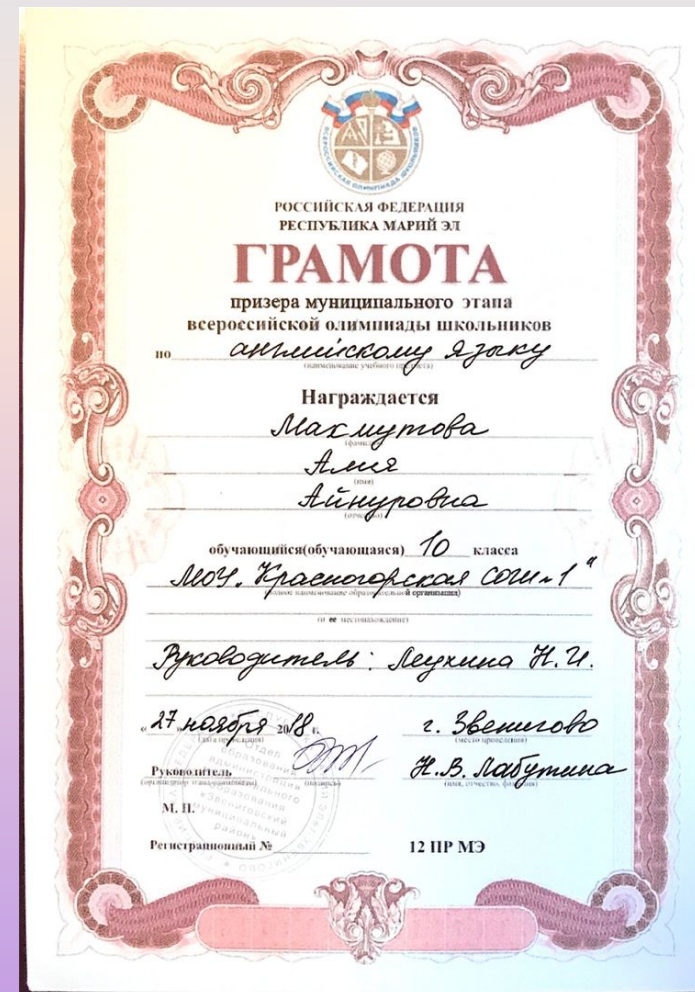

About my studying English.

The most difficult but challenging things are listening and speaking. For improving speaking skill, I speak with myself, the wall or the mirror about what happened at the day or what I think. Way of improving my listening skill I listen to American music with understanding words and means.

Learning English is a useful skill. I'm learning English because I want to get the information by myself which have not been interpreted yet.

My achievements in English

What are my most important insights after 11 years of studying at school?

It was only at the end of my school years that I realized a few simple truths.

1. Don't be afraid to try something new. This way you will find what suits you best.
2. Put your health first. If you feel like you can't do it anymore, just put it off for later.
3. Sleep more than you study, study more than you party, party as much as you possibly can

My recommendation to the younger students of our school

If you want to play with a ball in the English classroom,
think twice. In the game between the ball and the flower,
the ball wins.. 🤡

Sorry.. again..
