=30.0000 mm

=30.0000 mm
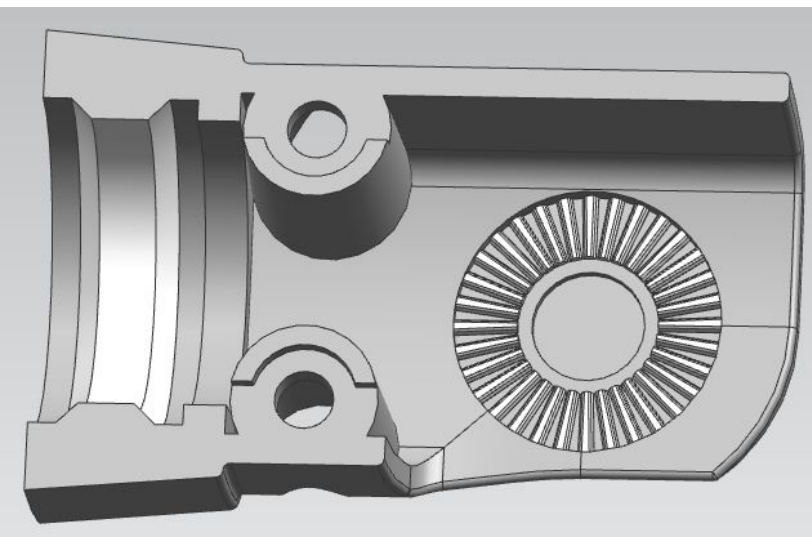

Change 1 from NIC's new file 20220301:
The position for SD is longer
------ OK ,no problem from Hasion 3.1

=0.250000 mm
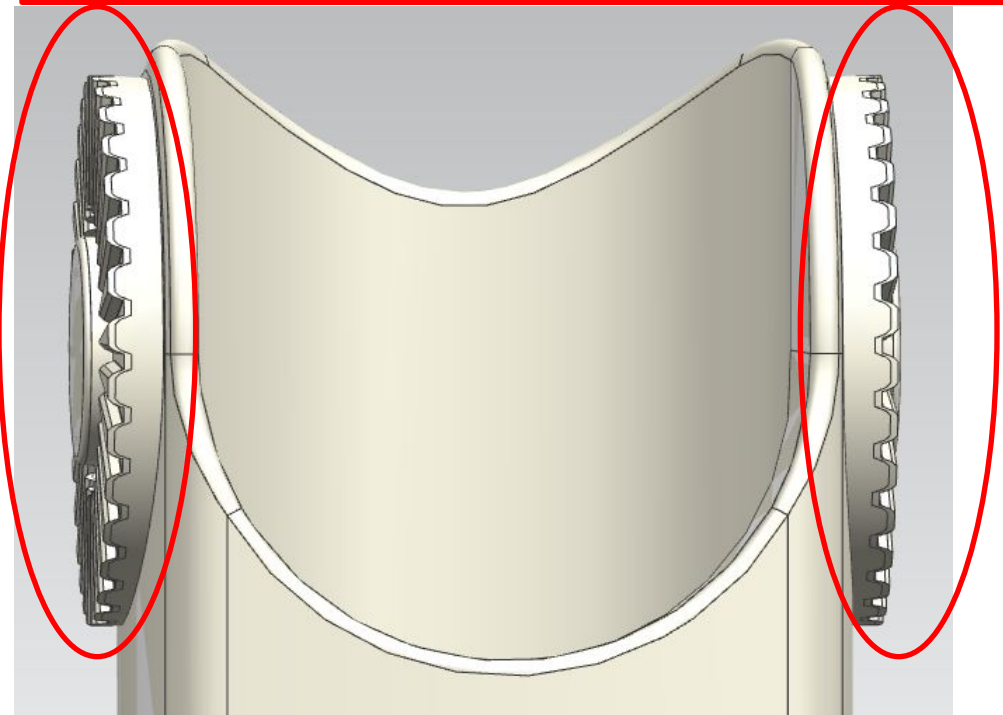

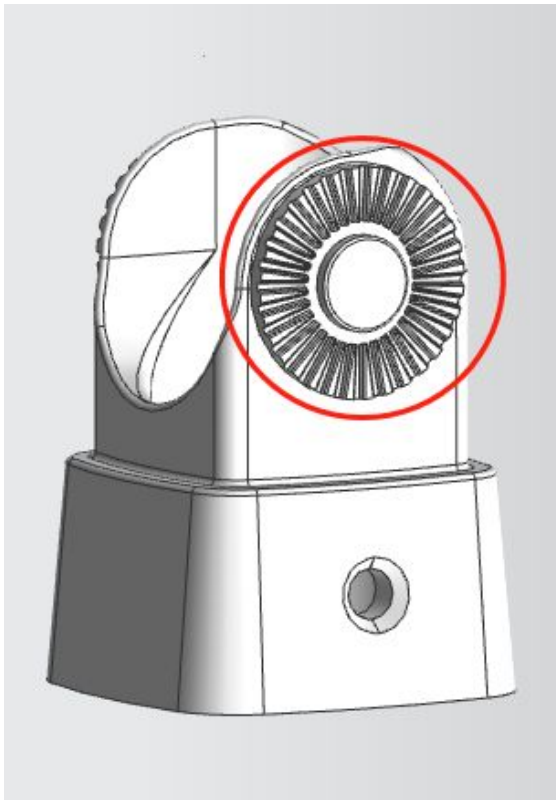

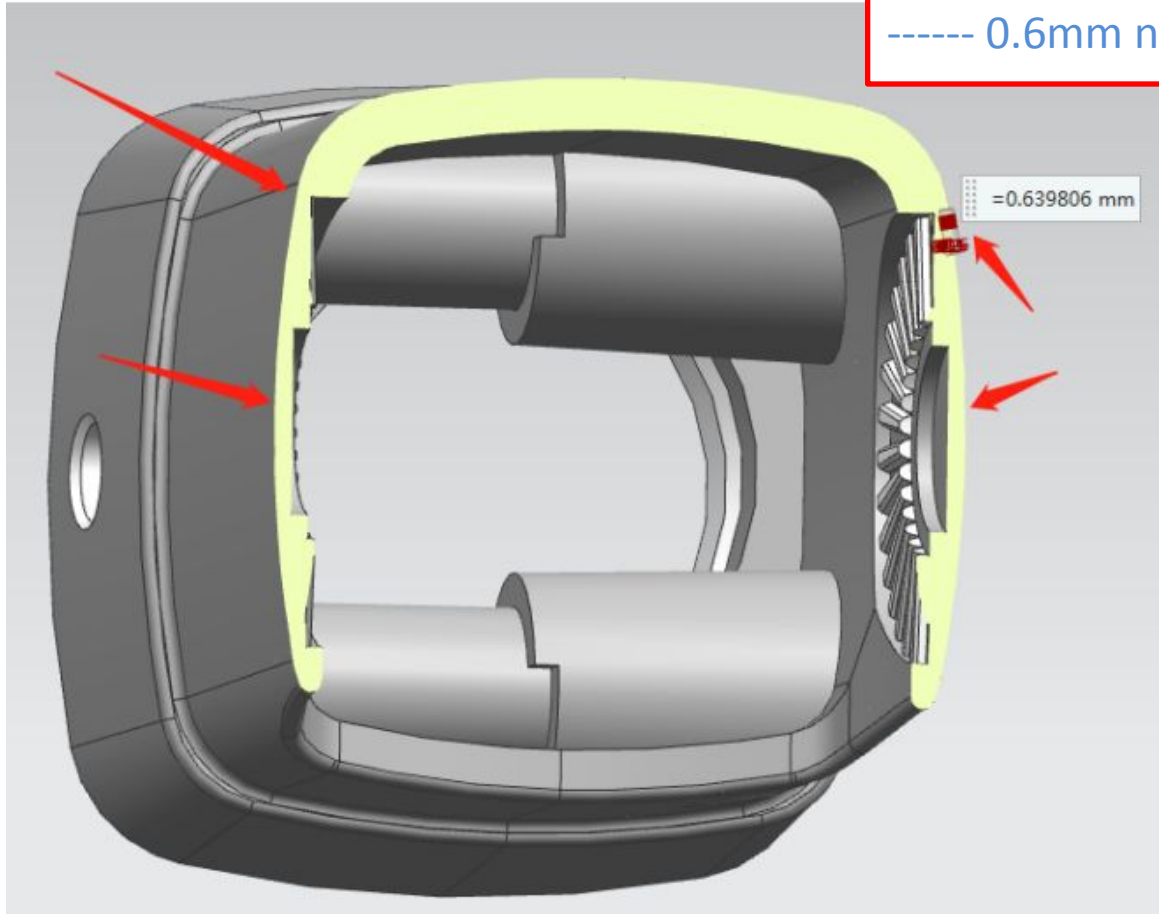

Change 2 from NIC's new file 20220301:
The position for gear
------ OK ,no problem from Hasion 3.1

Change 3 from NIC's new file 20220301:
The thickness for here position
------ 0.6mm not OK , It at least 1.2mm--Hasion.3.1

=0.639806 mm

because only 0.6mm thickness ,
too thin , easy to be broken

Change 4 from NIC's new file 20220301:
the hole is through hole type

螺丝孔改成通孔

Problem 5 from NIC's new file 20220301:
fixing way of the bracket board
-------the fixing way is not unreasonable,it dont improve the fixing --
Hasion 3.1
