

2013

WELCOME

Vagnerplast Brand is Back

let's experience the Sanitary ware revolution

We are the first manufacturer of acrylic baths since 1993 in the Czech Republic.

VAGNERPLAST produces acrylic baths and trays for more than 18 years.

During this period of time we have significantly improved the technological production process and thus the quality of our products.

We will again offer a wide range of products for your bathroom, where every customer can choose according to his wishes.

We want to make VAGNERPLAST favorite by bringing again the perfect combination of quality and price of our products

LOCATION

- Quick expedition thanks to our location

NEW COLLECTION

CARINA

Walk-In

From 1.2013 these items will be made only on order

CARINA

Carina hinged screens are designed in ELOX. For the production we use a certified secure glass. We also use glass thickness of 5 and 6 mm. Screens can be installed on shower trays or directly on the floor. Height of shower enclosure is 1900 mm, for bath screens 1480 mm. Glass is fitted with a protective NANO spray that prevents lime scale and dirt.

SAGITA

Sagita shower and bath screens are made of aluminum profiles in ELOX color or WHITE.

ATYPICAL SOLUTIONS

We are able to produce a variety of Carina and Sagita. Atypical screens are made up to 2000 mm.

BATH SCREENS

We use water resistant screens which complies with the EN norm 14428:06/2005
