

Lemuria or Mu

Many researchers believe that another 80 thousand years ago on the giant continent of Lemuria there was an ancient civilization, the first in the world. It lasted a long 50 thousand years. The cause of her death became a devastating earthquake caused the displacement of Earth's poles, it just happened 26 thousand years ago. It is believed that the civilization of Mu has not reached such a high knowledge in technology as the later, but the peoples of Lemuria were able to master the construction of huge stone buildings that were able to withstand earthquakes. This construction technique was the greatest achievement of civilization Mu. Probably, then the whole world was a single language, and government. It has allowed the formation of a prosperous state, because all citizens to know the laws of the Earth and the Universe. For 21 years people learned the basic knowledge, and became a full-fledged citizen to 28 years.

Atlantis

Once upon a time the continent of Mu under the influence of disasters plunged into the ocean, there was a Pacific education level as the water in other parts of the Earth down. As a result of the small islands of the Atlantic have grown substantially in size. Archipelago Poseidonis turned into a small continent. Later historians have forgotten his real name, called Atlantis. It is believed that a civilization superior to their level of technology, even modern. Tibetan philosophy dictated in 1884 by young American Frederick Oliver book "Earth return Dweller", which refers to such inventions as the electric rifle, air conditioning, cleaning the air of harmful fumes, fluorescent tubes, vacuum tubes, monorail transport. Water Generators, mechanisms for obtaining water from the atmosphere, aircraft operated by anti-gravity forces. And clairvoyant Edgar Cayce mentioned that the Atlantean used airplanes and crystals existed. Helping to get a huge amount of energy. Casey also said that the Atlanteans incorrectly ordered his rule. This led to the destruction of an ancient civilization.
