M	5001M	3.25 "	13 " -16 "
L	5001L	3.25 "	16 " -19 "

Indications:

☆ Used for symptomatic relief of muscle, tendon, ligament, or soft tissue injury of the neck region

Features and Benefits:

- ※ Restricts cervical spine flexion, extension and rotation to promote patient recovery.
- ※ Adjustable bilateral Velcro® hook and loop fasteners ensure proper fit.
- ※ Two-piece design enhances patient comfort
- ※ Total cervical arch support maintains neutral alignment of the cervical spine.
- ※ Ventilation and Water-resistant
- ※ X-ray, CT and MRI lucent.

Foam Cervical Collar

Size	Item No.	Nec Circ.
S	5002S	40cm
M	5002M	50cm
L	5002L	61cm
XL	5002XL	65cm

Indications:

☆ Used in cases of muscle tension or minor cervical injuries

Features and Benefits:

- ※ Medium-firm density Breathable
- ※ Deeply anatomically contoured
- ※ Natural color, 100% cotton stockinette-covered for comfort
- ※ Easy Wash
- ※ Provides limited cervical motion control
- ※ Convenient for wear while sleeping
- ※ Height 7.5cm or 10cm is available

Semi-rigid Cervical Collar

Indications:

- ☆ Used for soft tissue injury or minor cervical injuries.

Features and Benefits:

- ※ Completely height-adjustable to provide desired flexion or extension positioning
- ※ Soft leather covered edge for patient comfort and easy cleaning
- ※ Hook and loop closure

Shoulder Brace

Deluxe Shoulder Immobilizer

Indications:

☆ For treatment of traumatic or post-surgical immobilization

Features and Benefits:

- ※ Adjustable wrist cuff and shoulder strap may be positioned as needed for proper control and custom fit.
- ※ Adjustable humeral cuff also available on one style.
- ※ Available in child or adult models
- ※ Strap provides additional shoulder immobilization.
- ※ Fits right or left

Size	Item No.
U	7003

Forearm Support

Indications:

☆ Shoulder or arm instabilities/injuries

Features and Benefits:

- ※ Unique chest strap immobilized the upper arm eliminating the need for a humeral cuff
- ※ Two over-the-shoulder criss-cross with a slide buckle for proper strap adjustment and make the forearm be placed in desired position
- ※ Fits right and left.
- ※ lightweight and easy-to-use

Size	Item No.
U	7004

Shoulder Brace

Telescopic ROM Arm Brace

Size	Item No.
Universal-L	7005-L
Universal-R	7005-R

Indications:

☆ For non-operative application, collateral ligament strains and ruptures and ulnar nerve transposition. May be used following early cast removal to stabilize fractures, and for post-operative immobilization.

Features and Benefits:

- ※ Aluminum ROM hinges allows adjustment of flexion and extension to provides protected range-of-motion in rehabilitation procedures
- ※ Adjustable hook and loop sling-straps which can be with or without provides additional immobilization and remain arm in a desirable position.
- ※ The aluminum hinges is telescoping and length can be adjusted from 13" to 17" according to patient's arm size.
- ※ Foam liner with good air circulation added patient comfort as well as slip-resistance
- ※ Easy to use, even the patient can wear it by themselves after the first time.
- ※ Lightweight, low profile and beautiful

Breath Arm Sling

Indications:

- ☆ Cast support
- ☆ Injuries to the arm, wrist or hand

Features and Benefits:

- ※ Constructed of cool mesh fabric
- ※ Adjustable shoulder strap and waist loop that limits wrist drop and prevents migration

Size
U

Item No.
9030

Indications:

- ☆ For mild medial/lateral instability, including ACL/PCL laxity.
- ☆ May be used for post-op, rehabilitation or functional application

Features and Benefits:

- ※ Lightweight, rigid, low profile.
- ※ Easy-telescopic-system allows length be adjusted so easy according to patient's knee size
- ※ Quick-release buckle is easy to put on or off after first-time-use.
- ※ Soft and durable nylon loop straps offering increased support and comfort
- ※ Dual axis motion control hinges with foam pads provide full and limited rang of motion with flexion/extension stops at 0°,30°,45°,60°and 90°

OA KNEE BRACE

Indications:

- ☆ Mild to moderate OA knee
- ☆ Instability of knee joint or ligament injury
- ☆ Protect knee joint after knee surgery
- ☆ Ligament injury or meniscus injury

Features and Benefits:

- ※ Support knee joint and share the loading force
- ※ Provide stability for better healing of injured tissue
- ※ Prevent injury in recovery phase after surgery
- ※ Length adjustable of thigh stay with easy setting snap
- ※ New material of anti slipping PU foam
- ※ Specific design for left or right side

Features and Benefits:

- ※ Neoprene provides compression, warmth and durability
- ※ Features an anterior compression pad for extra protection
- ※ Hoop and look closure
- ※ Patella cutout relieves patella pressure and assists in optimum positioning.

Knee Brace

Patella Strap

Indications:

- ☆ Patellar tendonitis, patellar tracking, Osgood-Schlatter disease

Features and Benefits:

- ※ Easy to apply and effective in treating knee pain
- ※ Uniquely shaped silicone pad fits over the patellar tendon
- ※ Soft material is comfortable against the skin and behind the knee
- ※ Fully adjustable Velcro exterior for custom sizing

Size	Item No.
Universal	9027

Arthritic Patella Strap

Indications:

- ☆ Patellar tendinopathy
- ☆ Osgood-Schlatter disease
- ☆ Reinforces and protects the patellar tendon

Features and Benefits:

- ※ 1/8" thick neoprene with nylon lining
- ※ Simple fitting & time-saving application via hook and loop closure
- ※ Can be used on either knee. One size fits all.

Size	Item No.
Universal	9041

Enhanced Patella Strap

Indications:

- ☆ Used for slight injuries of knees and for sports injuries use

Features and Benefits:

- ※ Foam surfaces for comfortable wear.
- ※ Elastic strap and hook closure for easy use
- ※ With PP slat inside to enhance compression
- ※ Protect injured knee
- ※ Help to heal the pain of knee

Size	Item No.
Universal	9042

A close-up photograph of a person's legs and feet on a beach. The person is standing on wet sand, and their feet are reflected in the shallow water. The background shows the ocean waves under a clear blue sky. The text "Ankle Brace" is overlaid on the right side of the image in a bold, blue font with a white outline.

Ankle Brace

Give Ankle Brace

Item	Size
6001L	Universal-L
6001R	Universal-R

Indications:

- ☆ Mild to moderate ankle sprains and strains (Grade I and II)
- ☆ Chronic ankle instability

Features and Benefits:

- ※ Durable fabric shell with inner non-slip coating adds support by reducing slippage
- ※ Foam-crammed air cell that supports the ankle
- ※ Semi-rigid cased shell, extremely fast and easy to put on
- ※ Adjustable heel width for easy application
- ※ Low profile design fits easily into most shoes

Lace-up Ankle Brace

Indications:

- ☆ Provides stability and comfort for chronic or acute ankle injuries.

Features and Benefits:

- ※ Low profile fits easily into most shoes
- ※ Constructed with non-stretch material for comfort, performance and durability
- ※ Lace-up design and trimmable figure 8 strapping locks the calcaneus into place & controls inversion/eversion
- ※ Circumferential elastic cuff for sizing measure around the ankle and provides ideal compression
- ※ Universal to fit right or left foot

Arch Support

Indications:

- ☆Alleviates arch pain and discomfort.
- ☆Alleviates conditions of plantar fasciitis (inflammation and tenderness of the plantar fascia).

Features and Benefits:

- ※Provides a slight lift to the arch helping to support the plantar fascia (a tough, fibrous band of tissue that runs along the sole of the foot with attachments to the heel bone and to the base of the toes).
- ※Targeted support reduces stress to the arch region and alleviates inflammation and tearing of the plantar fascia. Soft material offers a comfortable pad for the arch when the foot does touch the ground.

Size	Item No.
U	1021

AFO

Indications:

- ☆To support the ankle, hold the foot and ankle in the correct position, and correct foot-drop
- ☆To immobilize the ankle and lower leg in the presence of arthritis or fracture

Features and Benefits:

- ※Constructed of lightweight polypropylene-based plastic in the shape of an "L", providing rigidity
- ※They are attached to the calf with a strap, and are made to fit inside accommodative shoes

Size	Item No.	Male Shoe Size	Female Shoe Size
