

Parrots!

Author: Bochkina Elena Form 6 B

**Their
homeland
is Australia
and the
tropics.
They are
big bullies,
but they
are also
funny
birds.**

**There are
over
100.000
million
birds in the
world
altogether.
Birds come
all in
different
sizes and
colors.**

There are a great many birds, that can be taught to say a few words. But the real talking birds can be taught to say long sentences.

**The best
talking birds
are parrots.**

Many people believe that the ability to talk depends on the structure of a bird's tongue.

Most biologists believe that birds do not understand the words they say.

Thank you for attention!
