Evacuation

Орындаған: 2-топ

Place the scatted

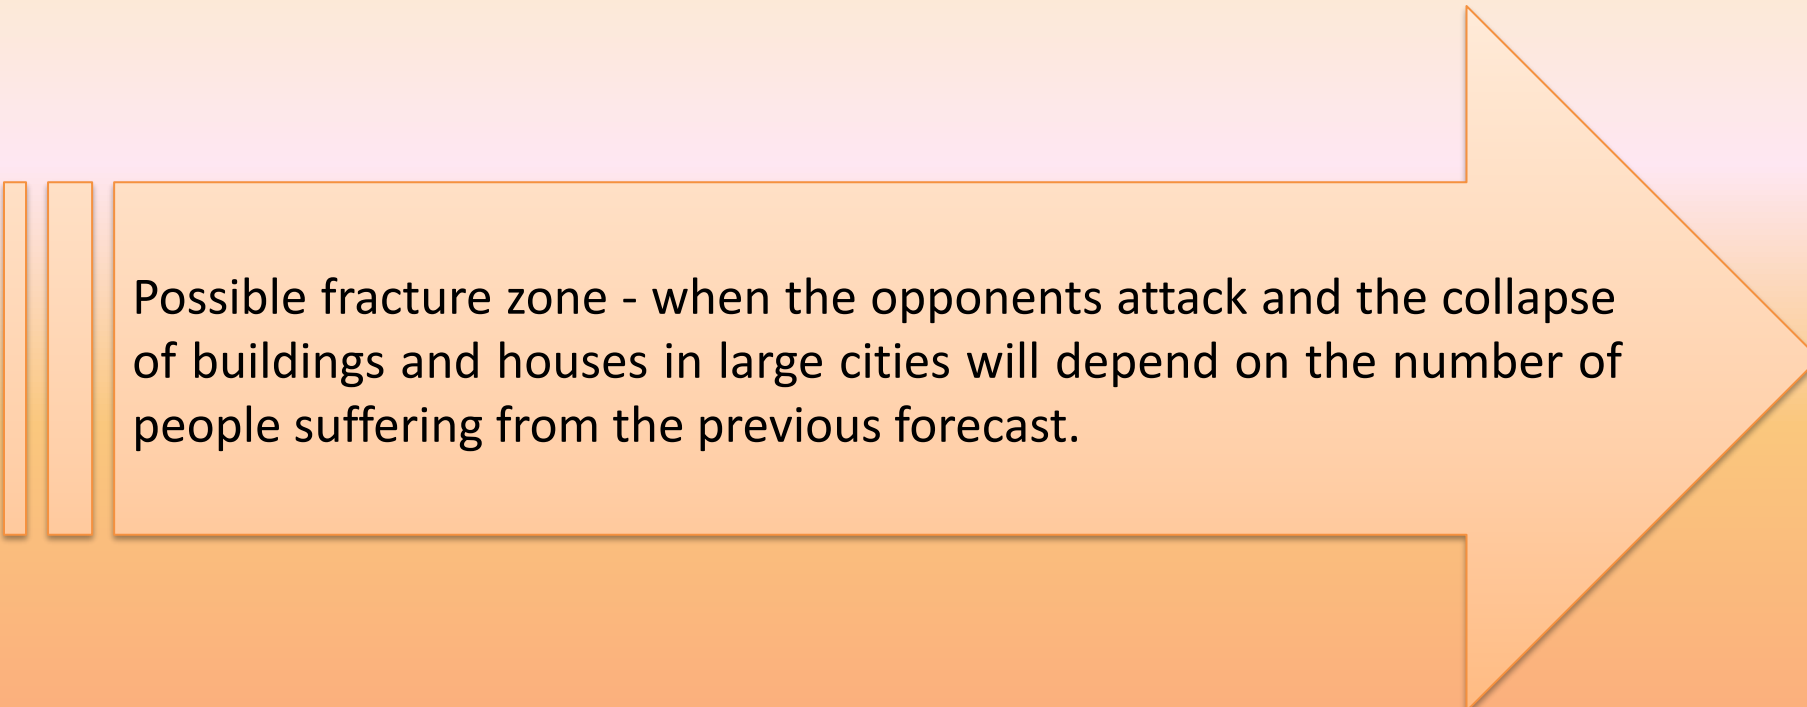

Agricultural zones outside the city and other cities or regions where military personnel and other people settled play servicesv

evacuation

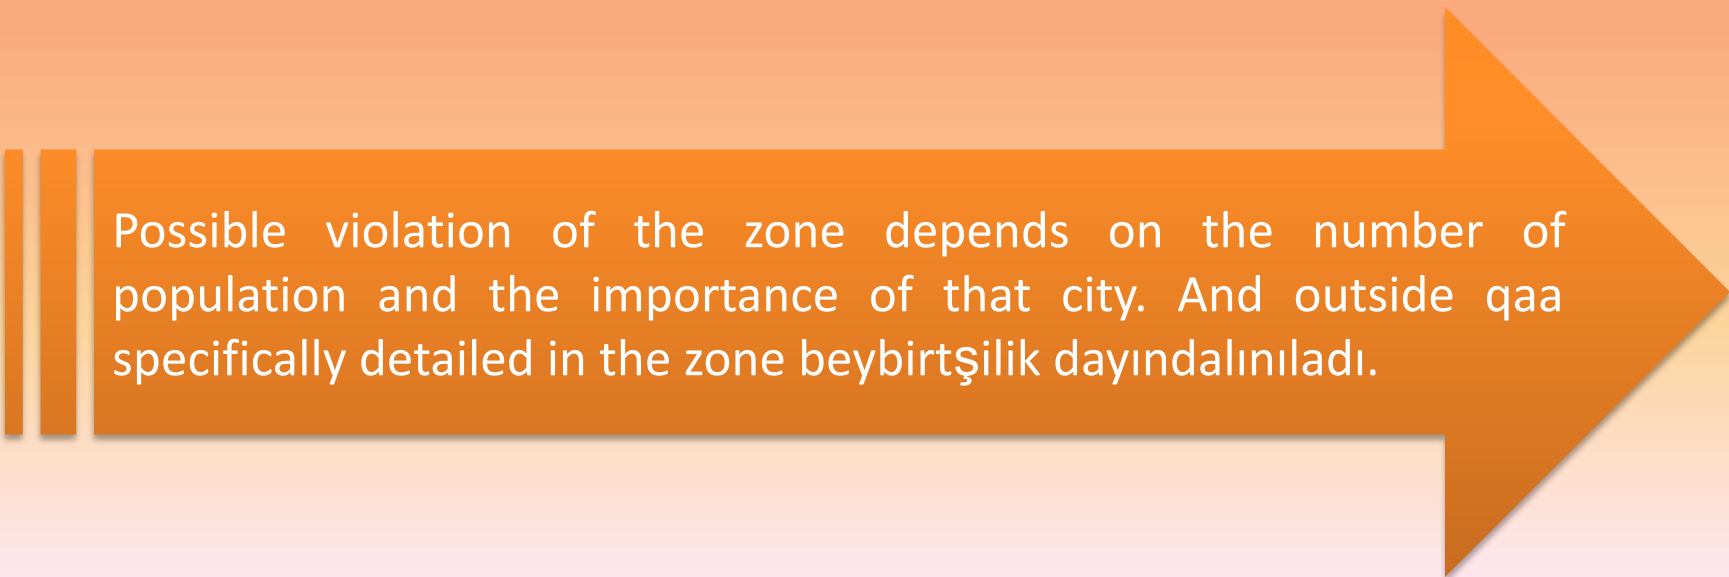

A diagram illustrating the concept of evacuation. At the top, a green oval contains the word "evacuation". Two large, curved green arrows originate from the sides of this oval and point downwards towards a large green rounded rectangle. The rectangle contains a paragraph of text describing the process of evacuation during a state of emergency.

If a state of emergency in large cities or to the zone outside the city people from other regions of the universe. They continue their services, depending on the situation or the military can pursue the case.

What is outside of the city area, away from the territory of the state of emergency, is located near major cities or important objects in the region. The distance between the city and this region should not exceed 4 hours in line

Possible fracture zone - when the opponents attack and the collapse of buildings and houses in large cities will depend on the number of people suffering from the previous forecast.

Possible violation of the zone depends on the number of population and the importance of that city. And outside qaa specifically detailed in the zone beybirtşilik dayındalınıladı.

Combined evacuation

Important agricultural work and military spare any transport people through the emergency evacuation of the territory.
