

2 PHOTOS

□ Ask your students to choose 2 holiday photos from their photo albums:

a) one that they like,

b) one they wish hadn't been taken.

□ (in pairs) S1 shows these to S2.

□ S2 should work out

1) which photo was chosen for which option

(a or b);

2) reasons to support that choice.

Student 1

- Choose two holiday photos from your photo album:

a) one that you like 😊

b) one you wish hadn't been taken 🙄👉

- Show your partner these photos.
- Listen to your partner and say if s/he guessed right / wrong.
- Explain why you keep these photos in your photo album.

Student 2

- Compare and contrast these photos
(who/what, what kind; location, weather; action; emotions, intentions; mood, atmosphere; ...)

- and try to guess which photo was chosen for which option:

a) one that your partner likes,

b) one s/he wishes hadn't been taken.

- Explain why you think so, give reasons.
