

KRASNOUFIMSK

Masha V. 10B

Krasnoufimsk became a city in 1781.

Culture

The number of sights in the Krasnoufimsk is almost unheard of for a city its size. Much of this has to do with the diverse architecture, which spans centuries and schools of architectural thought.

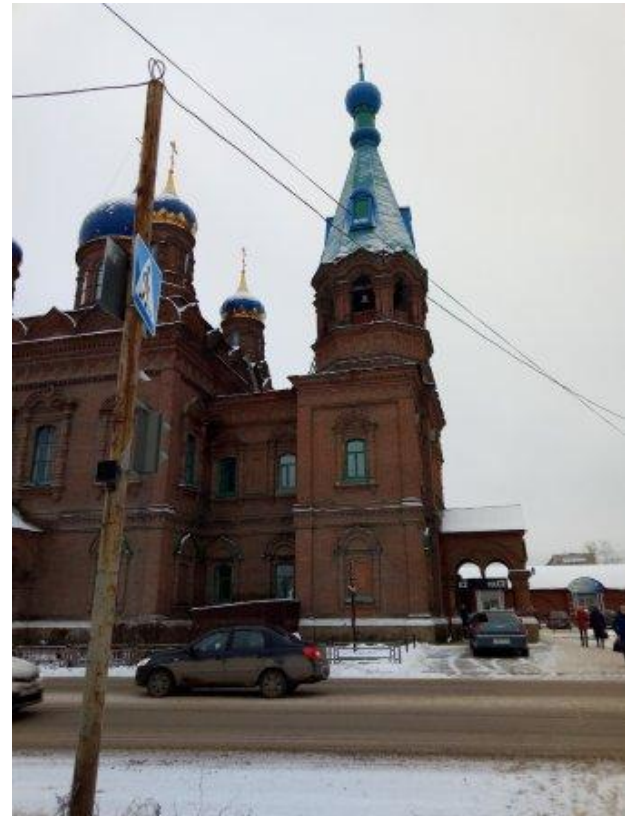

There are eight structures or groups of structures within the city that have been made "architectural monuments" because of their unique structures. Among these is "The Fortress Tower"

The Fortress Tower

Finally, there are two beautiful Orthodox cathedrals in the city - the Aleksandr Nevsky Cathedral and the Holy Trinity Cathedral.
