Read about how the Kindle got its name. Do you think it's a good name? Why (not)?

The Kindle eBook reader first appeared in 2007, and since then, millions of **them** have been sold. But how did **it** get its unusual name? Amazon's founder, Jeff Bezos, asked an American designer, Michael Cronan,

to think of a name for the new device. Bezos told **him** that **he** didn't want a high-tech name because Amazon's customers loved traditional paper books. Cronan and his wife talked to each other about the warm, comfortable feelings people get from reading. Finally, he chose the word 'kindle', which means 'to light a fire'. Cronan thought that **it** would make people think of the excitement they feel when they are enjoying **their** favourite book. The name was also inspired by a line from the French novelist Victor Hugo: 'to read is to light a fire'.

We make nice things that are good for the planet. We created this amazing lamp for a student competition. It produces warm light from a low energy bulb. The lamp is made from a wine bottle from a local restaurant and oak wood from local trees. The lamp is very easy to take apart and all the parts are entirely recyclable.

Our simple building system is for creative people of all ages. You can make almost anything you can think of, in either 2D or 3D, from a picture or a model, to large, complex sculptures, and even furniture. The small magnetic coloured blocks click together easily and are available in a wide range of modern colours. Use it in your workplace, at home, or simply as a fun hobby. Start small, but dream big.
