Education

To be in harmony with the world, people need to know more about different countries. This will help broaden our outlook.

Travel more

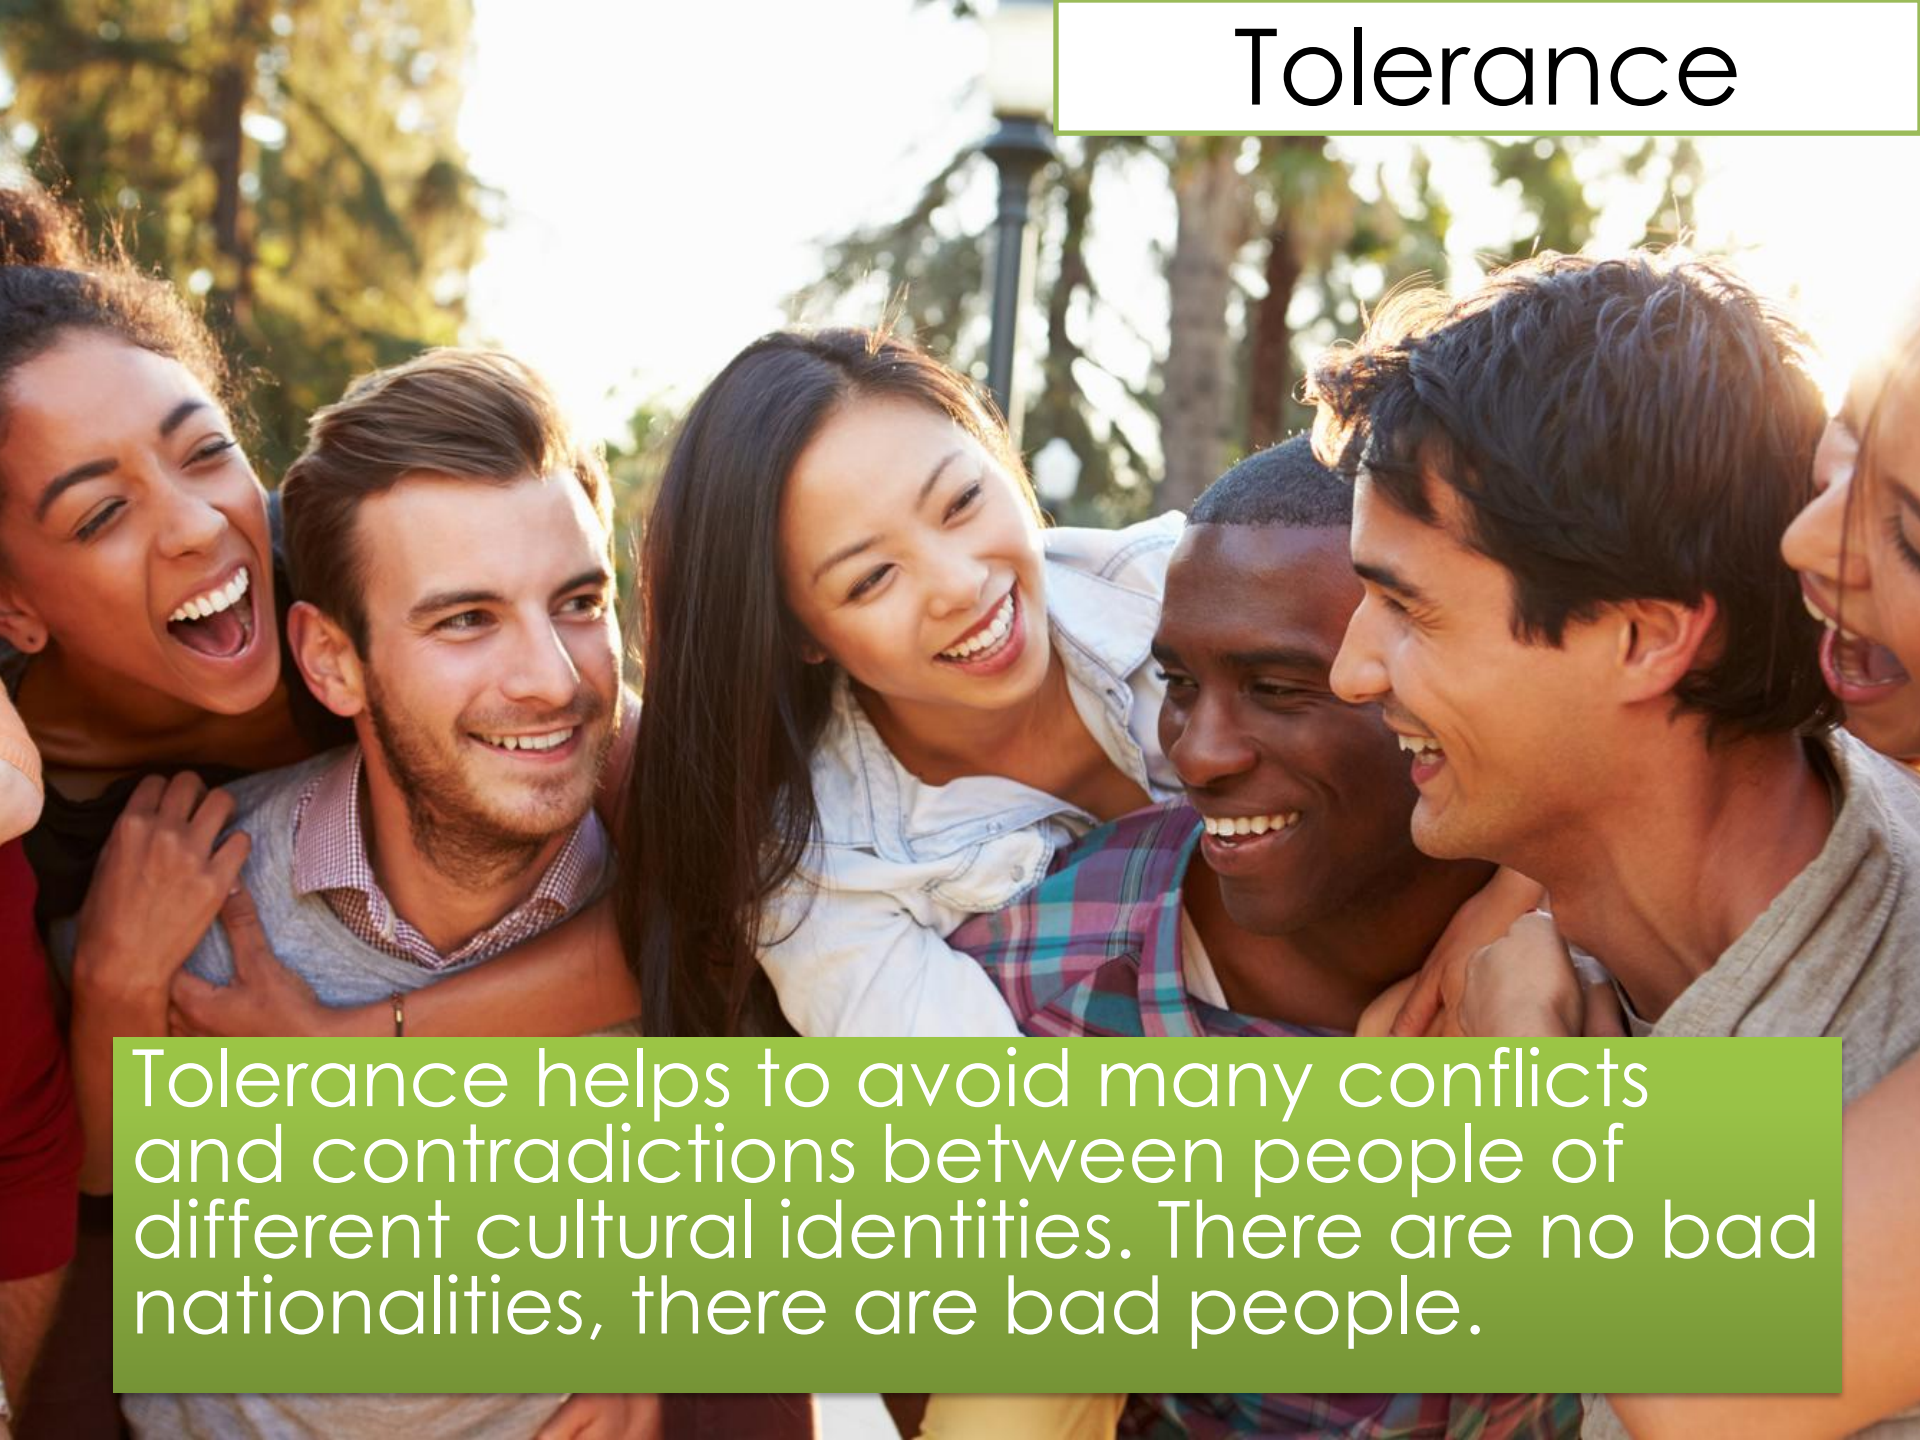

To achieve a state of harmony with the world, we need to understand that there are things that make people different, but there are many things that unite us. Traveling to different countries helps us understand this.

We can also find friends while traveling. International communications help us to be friendly.

Tolerance

A group of five young adults of diverse ethnicities are laughing and smiling together outdoors. A woman with dark curly hair is on the left, laughing heartily. Next to her is a man with a beard and a mustache, smiling. In the center is a woman with long dark hair, smiling. To her right is a man with short dark hair, smiling. On the far right is a man with dark hair, smiling. They are all looking towards the center. The background is a blurred outdoor setting with trees and a lamppost.

Tolerance helps to avoid many conflicts and contradictions between people of different cultural identities. There are no bad nationalities, there are bad people.

The background of the slide features a large crowd of people represented by silhouettes. The silhouettes are in two shades: dark blue and black. Many of the figures have their arms raised, with hands open or in fist, suggesting a crowd at a protest, rally, or concert. The silhouettes are layered, with some appearing more prominent than others, creating a sense of depth and a large gathering.

Safety

To achieve harmony in the world, it is necessary to fight against anti-human actions. For example: terrorism, violation of human rights. Only by joining forces will we be able to achieve success.

In my opinion, to achieve harmony in the world requires the efforts of all mankind. This way we not only become more friendly, but also preserve all the beauty of our world for our descendants.

I follow the rules of finding harmony with the world. The world will be a kinder place if everyone wants what they want for themselves.
