

In Harmony with the World

Iskendarova Nargila 10A

Harmony with the world is one of the most important parts of our life. It affects not only us, but also all people on our planet.

Environmental protection

SAVE
EARTH
FOR
A

With the development of technology, we began to forget about the importance of nature conservation. After all, destroying nature, we can destroy the world.

BETTER
PLACE

Education

To be in harmony with the world, people need to know more about different countries. This will help broaden our outlook.

Travel more

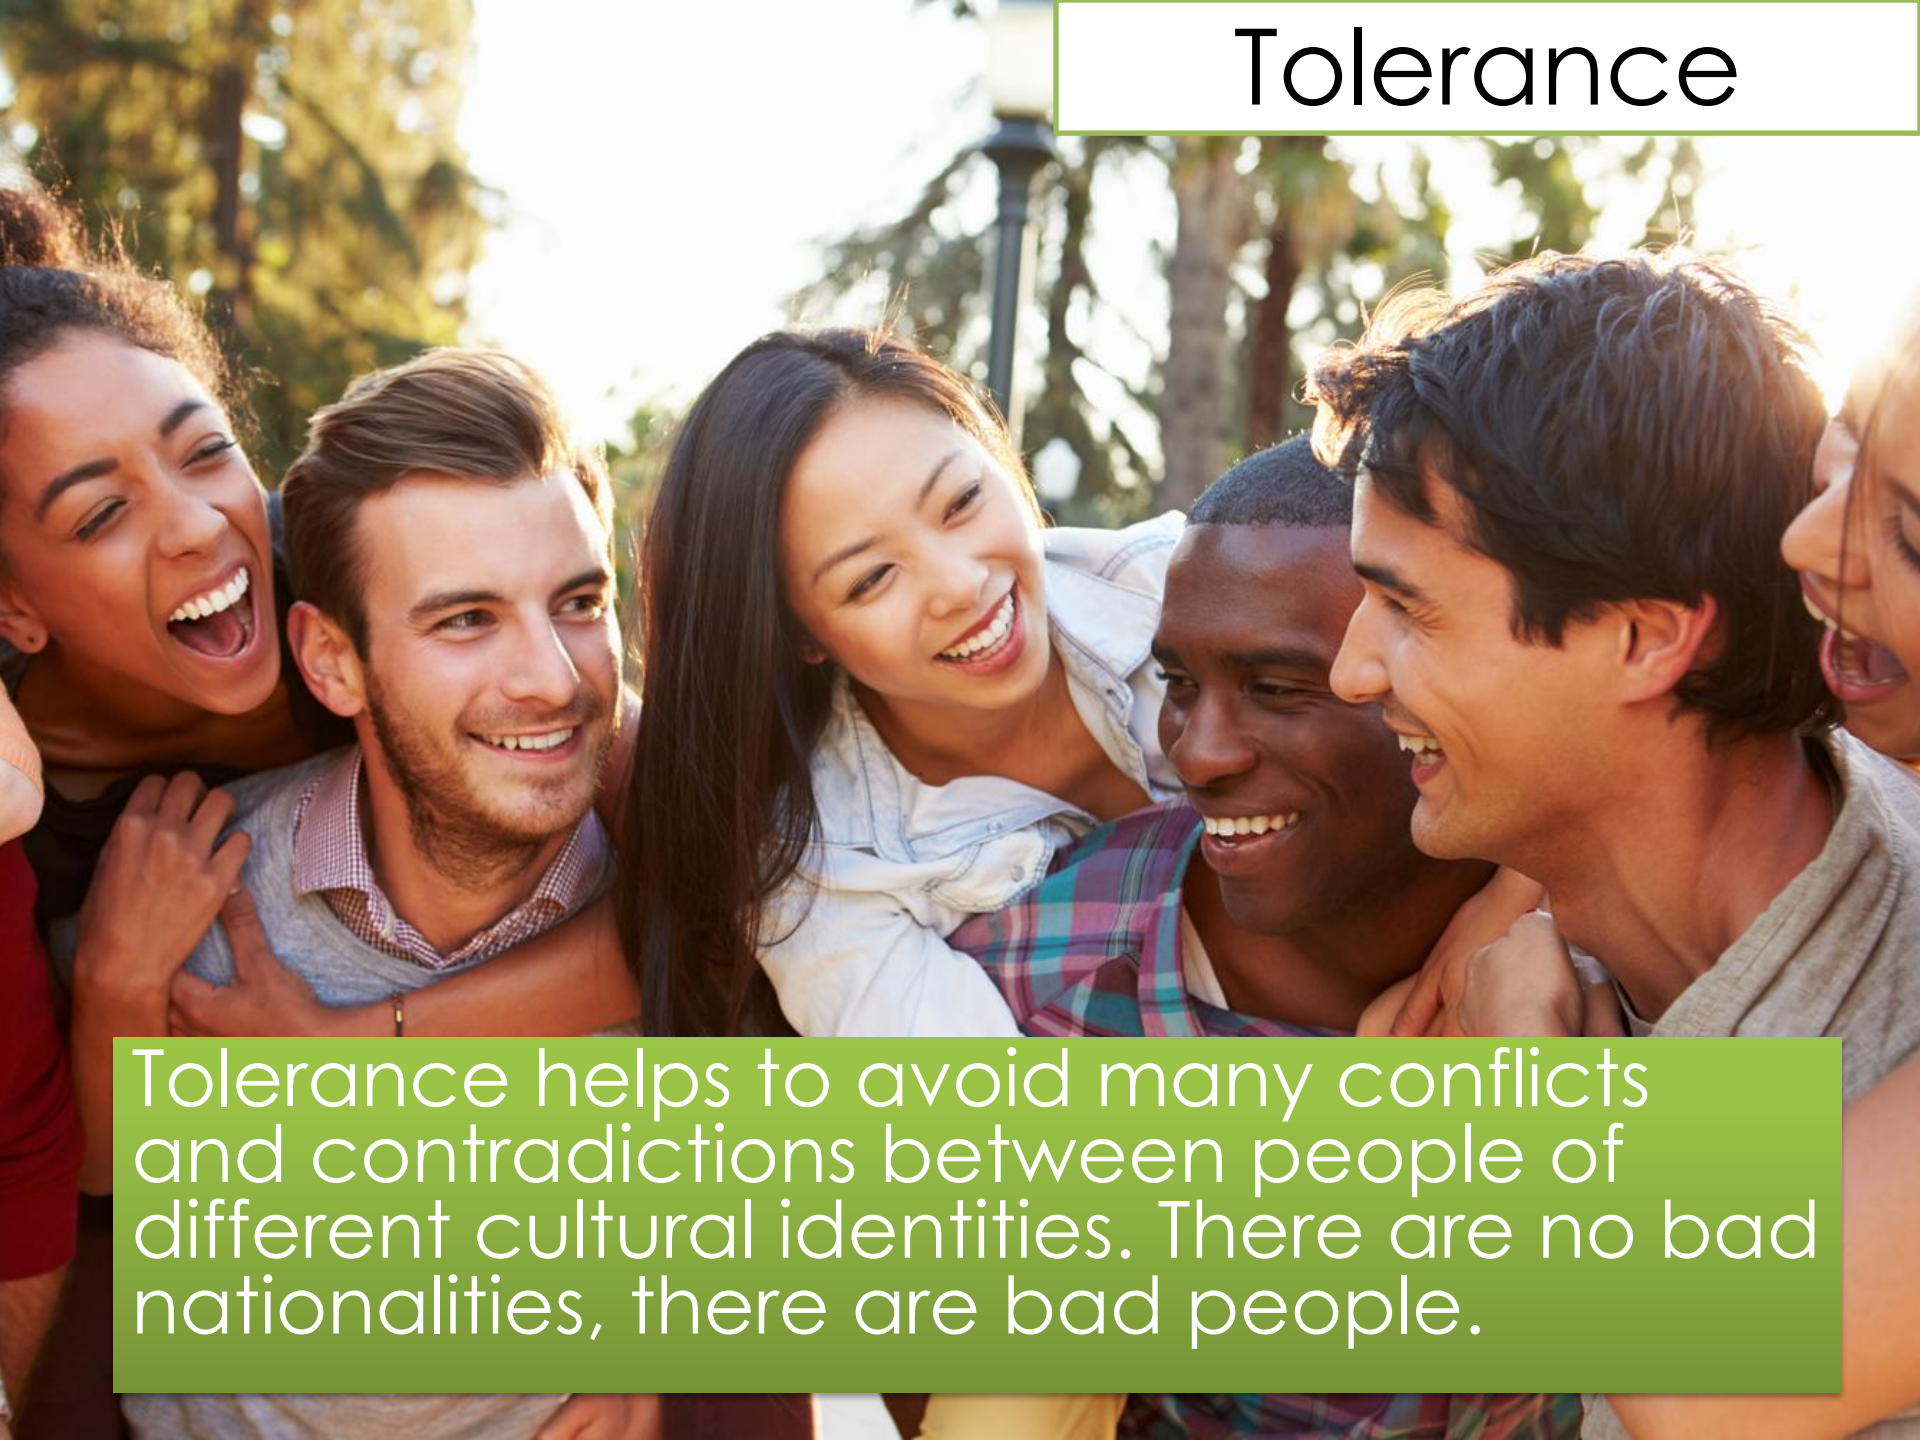

To achieve a state of harmony with the world, we need to understand that there are things that make people different, but there are many things that unite us. Traveling to different countries helps us understand this.

We can also find friends while traveling. International communications help us to be friendly.

Tolerance

A diverse group of young people, including a woman with dark curly hair, a man with a beard, a woman with long dark hair, a man with a shaved head, and a man with dark hair, are laughing and smiling together outdoors. They are huddled together, suggesting a close-knit group. The background shows trees and a street lamp, indicating an outdoor setting like a park or campus.

Tolerance helps to avoid many conflicts and contradictions between people of different cultural identities. There are no bad nationalities, there are bad people.

A large crowd of people is shown in silhouette against a white background. Many individuals have their arms raised in various gestures, including pointing, open palms, and clenched fists, suggesting a moment of collective celebration, protest, or solidarity. The silhouettes are in shades of blue and black, creating a sense of unity and movement.

Safety

To achieve harmony in the world, it is necessary to fight against anti-human actions. For example: terrorism, violation of human rights. Only by joining forces will we be able to achieve success.

In my opinion, to achieve harmony in the world requires the efforts of all mankind. This way we not only become more friendly, but also preserve all the beauty of our world for our descendants.

I follow the rules of finding harmony with the world. The world will be a kinder place if everyone wants what they want for themselves.
