# Comparative adjectives

big > bigger

You must *double* the consonant if:

the adjective is *one*  
*syllable*

+

the last two letters are a  
*vowel* + *consonant*

one syllable	vowel + consonant	double consonant
hot	o + t ✓	hotter (yes)
big	i + g ✓	bigger (yes)
soft	f + t ✗	softer (no)

But, if the consonant is *w*, we *don't* double the consonant:  
slow – slower      new – newer
