

Are you ready  
to play?

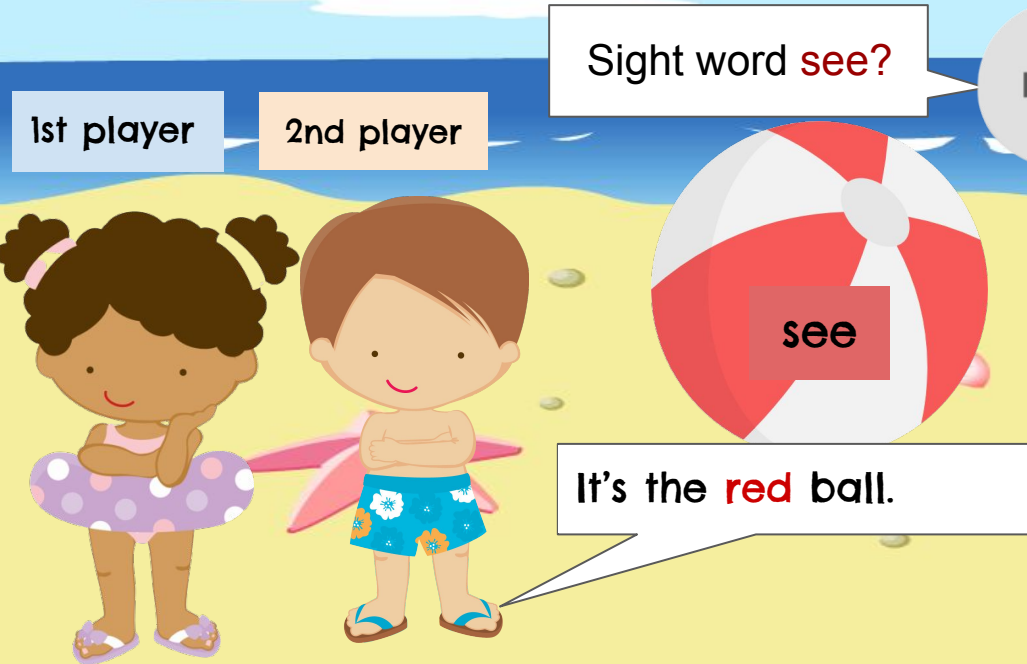

**PLAY**

Directions

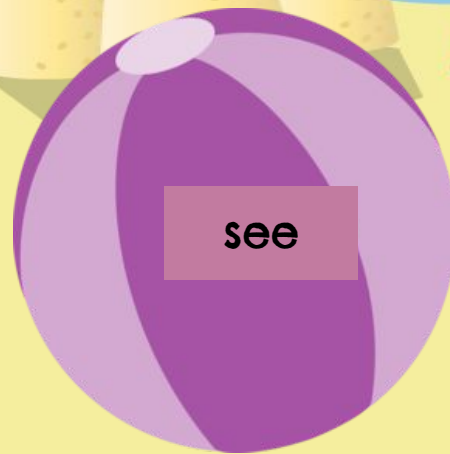

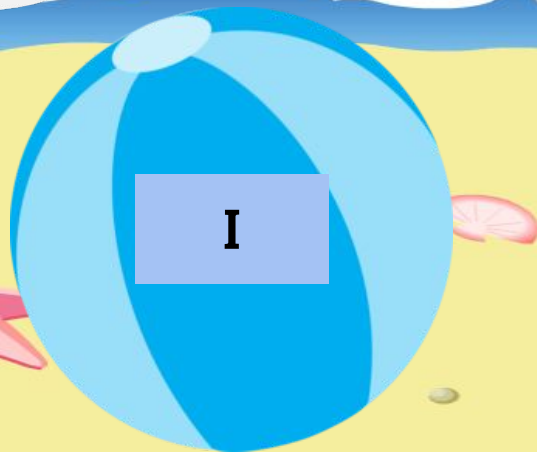

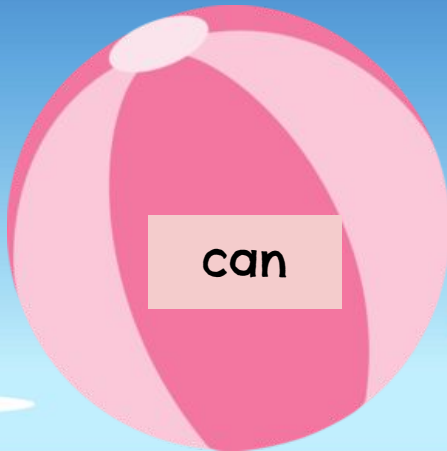

# Directions

- You will need 2 players or groups. You can split your class into two groups and play that way.
- Keep track of each teams point.

- Take turns to find the sight word for each round.
- Identify your answer by the color of the ball.
- If the player/team finds the right sight word, they get a point and move on to the next question. The other player/team starts the next round.
- If the player/team gets the wrong answer, the other player/team gets to try.
- Try to get as many points as possible to win the game.
- Good luck!
