

We are happy to see you in our
travel Agency

Hello ! We are happy to see you in our travel Agency. We can offer you to go to the wonderful country-Belarus. She is famed for its wildlife , she is beautiful at any time of the year.

In Belarusian forests live: hares, foxes, bears, wolves, elks and deers.

In spring nature wakes up from hibernation , everything comes alive , the trees drink in the kidneys , and there are the first leaves, flowers bloom!

Summer is better spent in nature , for example the grandmother in the village . There you will see the true beauty of nature , the usual meadow seems the whole world ,many tourists remember the flower meadows we saw in Belarus

Welcome to Belarus
