Washer

A washing machine is an installation for washing textiles (clothes, underwear and bedding, bags and other thing

You should know that there are washing, drying and washing-drying machines. Washing machines - wash, rinse and squeeze the laundry;

Drying machines - wring and dry clothes;

Washing and drying machines - wash, rinse, wring and dry clothes.

Smartphones

The back of the phone is made of high-quality curved glass. A frameless screen occupies almost the entire front of the phone.

There is a very small drop-shaped neckline with a front-facing camera

module above which the speaker grille fits.

The phone has one external speaker, which stands out at a very high volume level, as well as clear sound.

The smartphone has a built-in sound amplifier.
