

NOTHERN REPTILES - DRAGONS!

by Maxim Zharnikov, 5th A

VIKINGS BELIEVED IN
DRAGONS - REPTILES
THAT COULD FLY,
BREATHE WITH FIRE
AND SWIM IN SEAS.

I LEARNED THEIR
CLASSIFICATION AND
NOW I'LL TALK ABOUT
SEVERAL TYPES OF THEM.

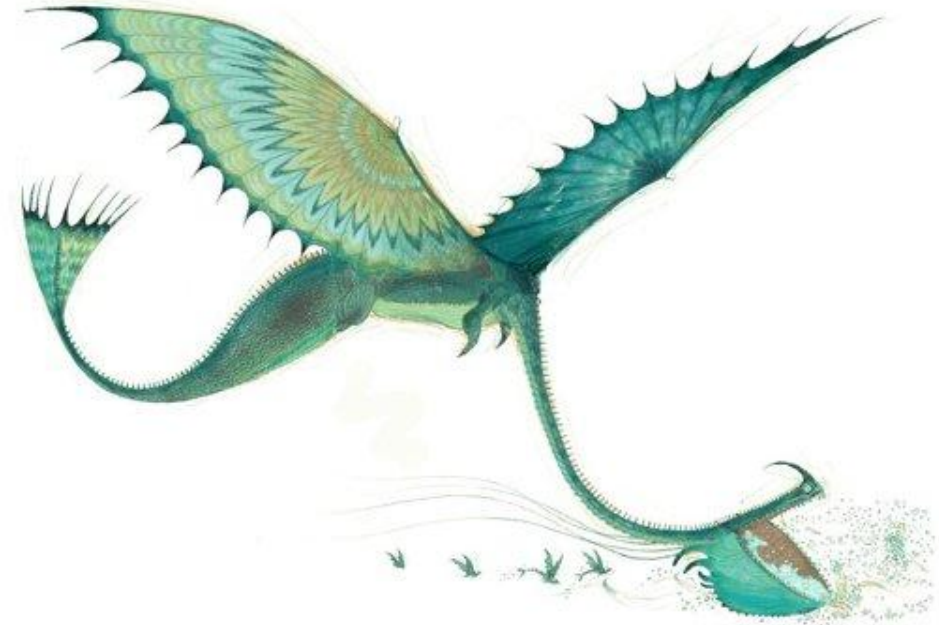

SERPENT:

THIS DRAGON CAN
EXHALE A THIN STREAM
OF FIRE. IT HAS A
POISONOUS SPIKES ON
ITS TAIL.

BOILER:

BOILER BOILS BOILED
WATER IN ITS STOMACH
AND SPITES IT TO
ENEMIES. ITS
ENVIRONMENT IS
UNDERWATER WORLD.

SINGETAILED:

THIS DRAGON HAS NO
BACKBONE. IT CAN
BREATHE FIRE FROM ITS
MOUTH, AND ALL ITS BODY
BEGINS TO FIRE, BUT IT'S
NOT PAINFUL FOR ITSELF.

Singetail

ALL DRAGONS LIKE TO
EAT FISH, BUT SHEEPS ARE
EVEN MORE DELICIOUS
FOR THEM.

SCIENTISTS HAVE
OPINION THAT ALL
DRAGONS ARE
COLD-BLOODED
REPTILES.
