The one who takes your hand but touches  
your heart is a true Friend

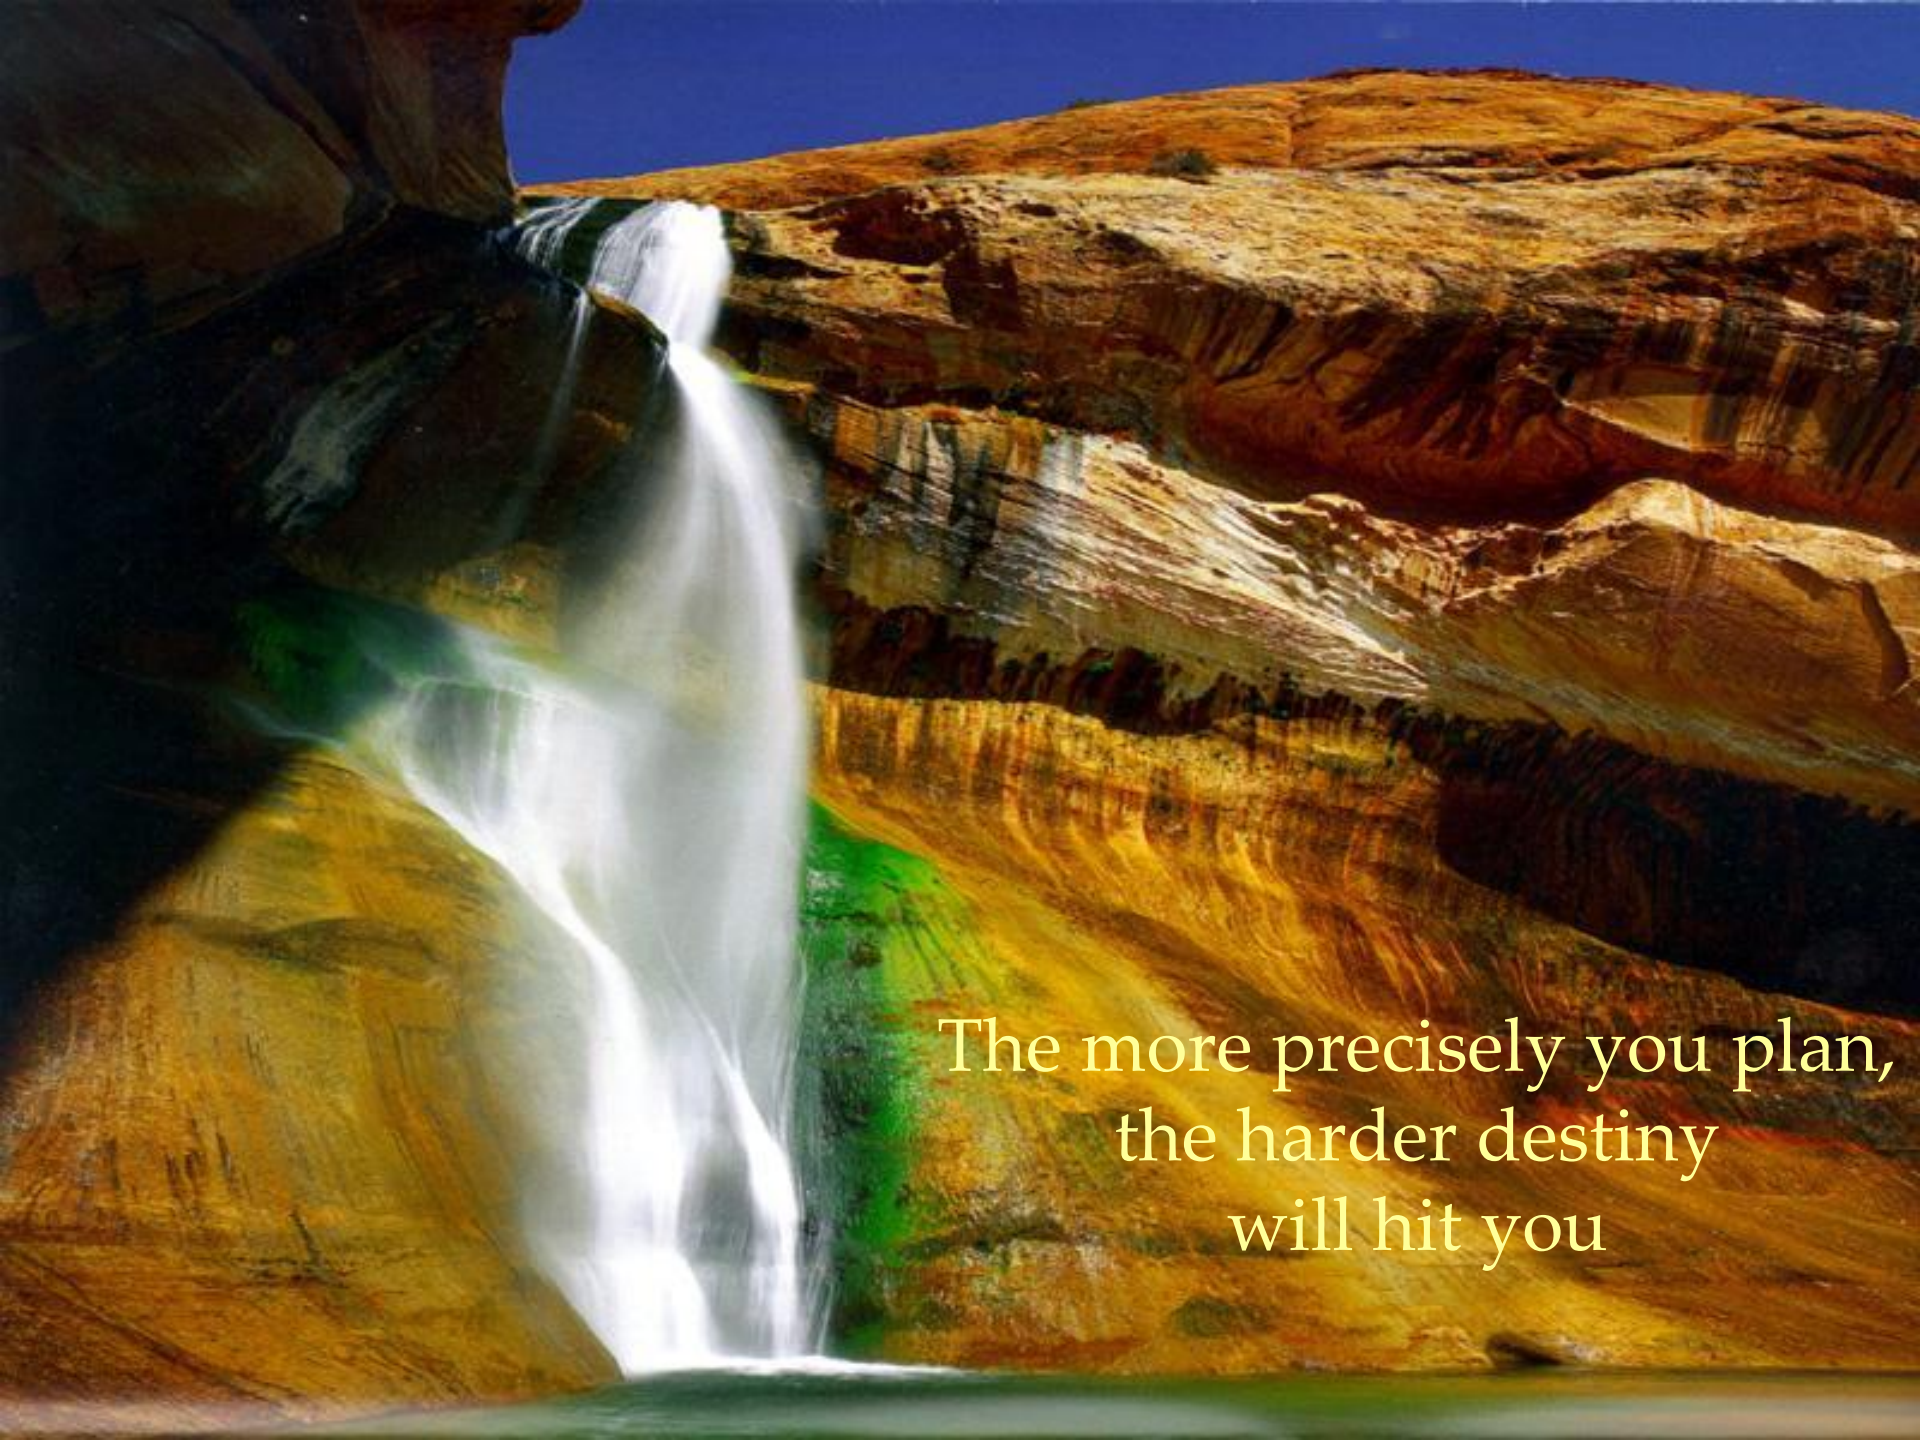

We seldom think of  
what we have,  
but always think of  
what we miss

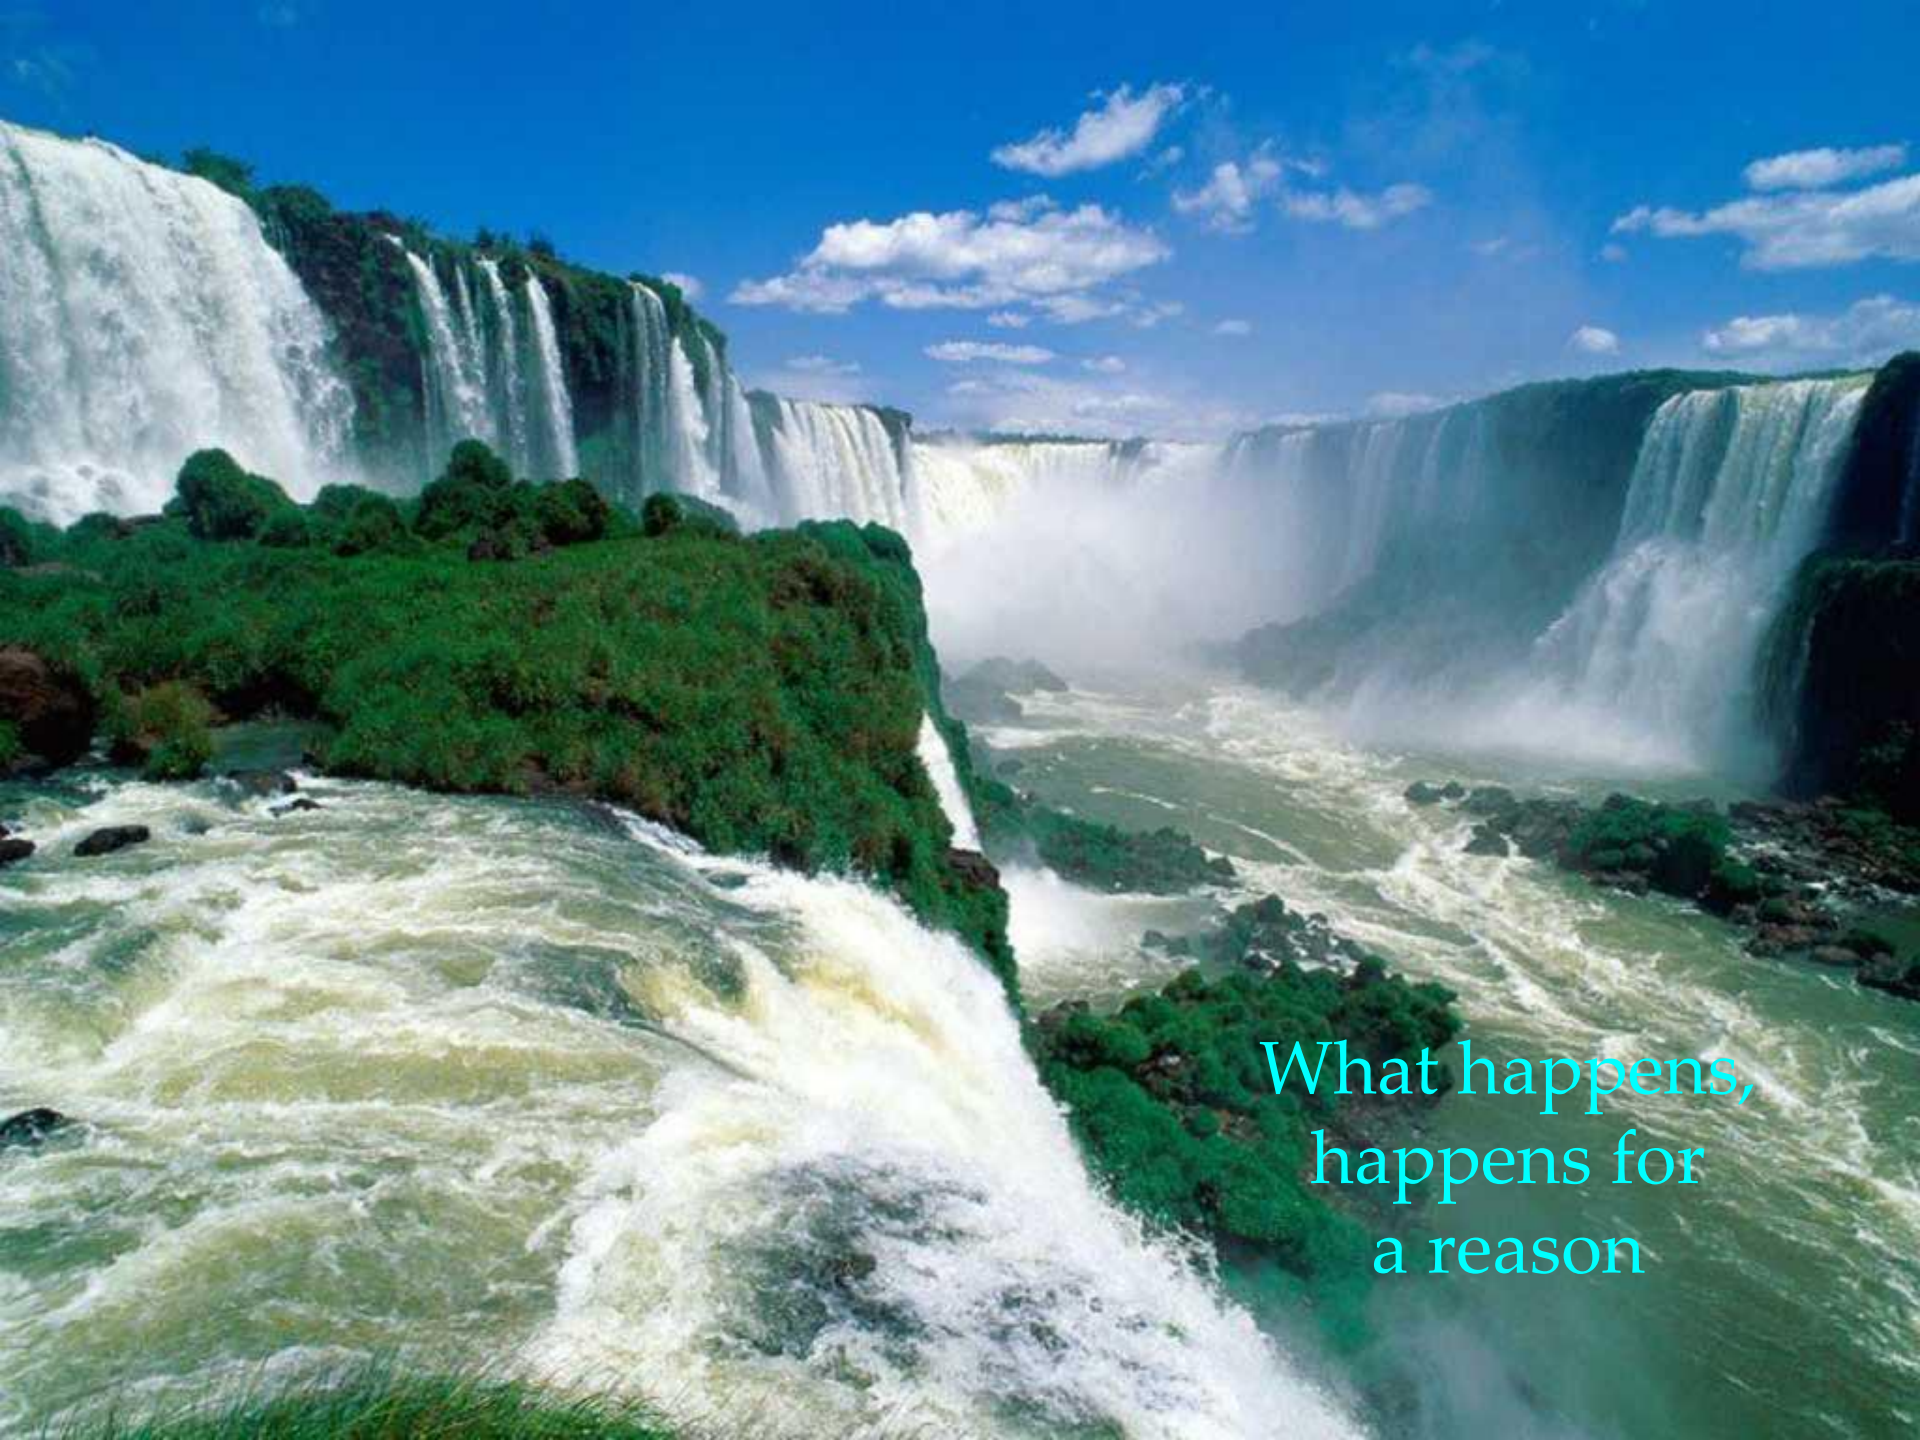

Don ' t cry because it ' s over now,  
laugh because it happened

A photograph of a waterfall cascading over a layered rock formation. The water is white and frothy as it falls, creating a mist at the base where a faint rainbow is visible. The rock face is composed of various shades of brown, tan, and red, showing distinct horizontal geological strata. The sky above is a clear, deep blue.

The more precisely you plan,  
the harder destiny  
will hit you

What happens,  
happens for  
a reason

A photograph of a waterfall with two main cascades of white water falling into a pool of green water. In the foreground, there are large, bright green leaves hanging down from the top of the frame. The background is a dense forest of green trees.

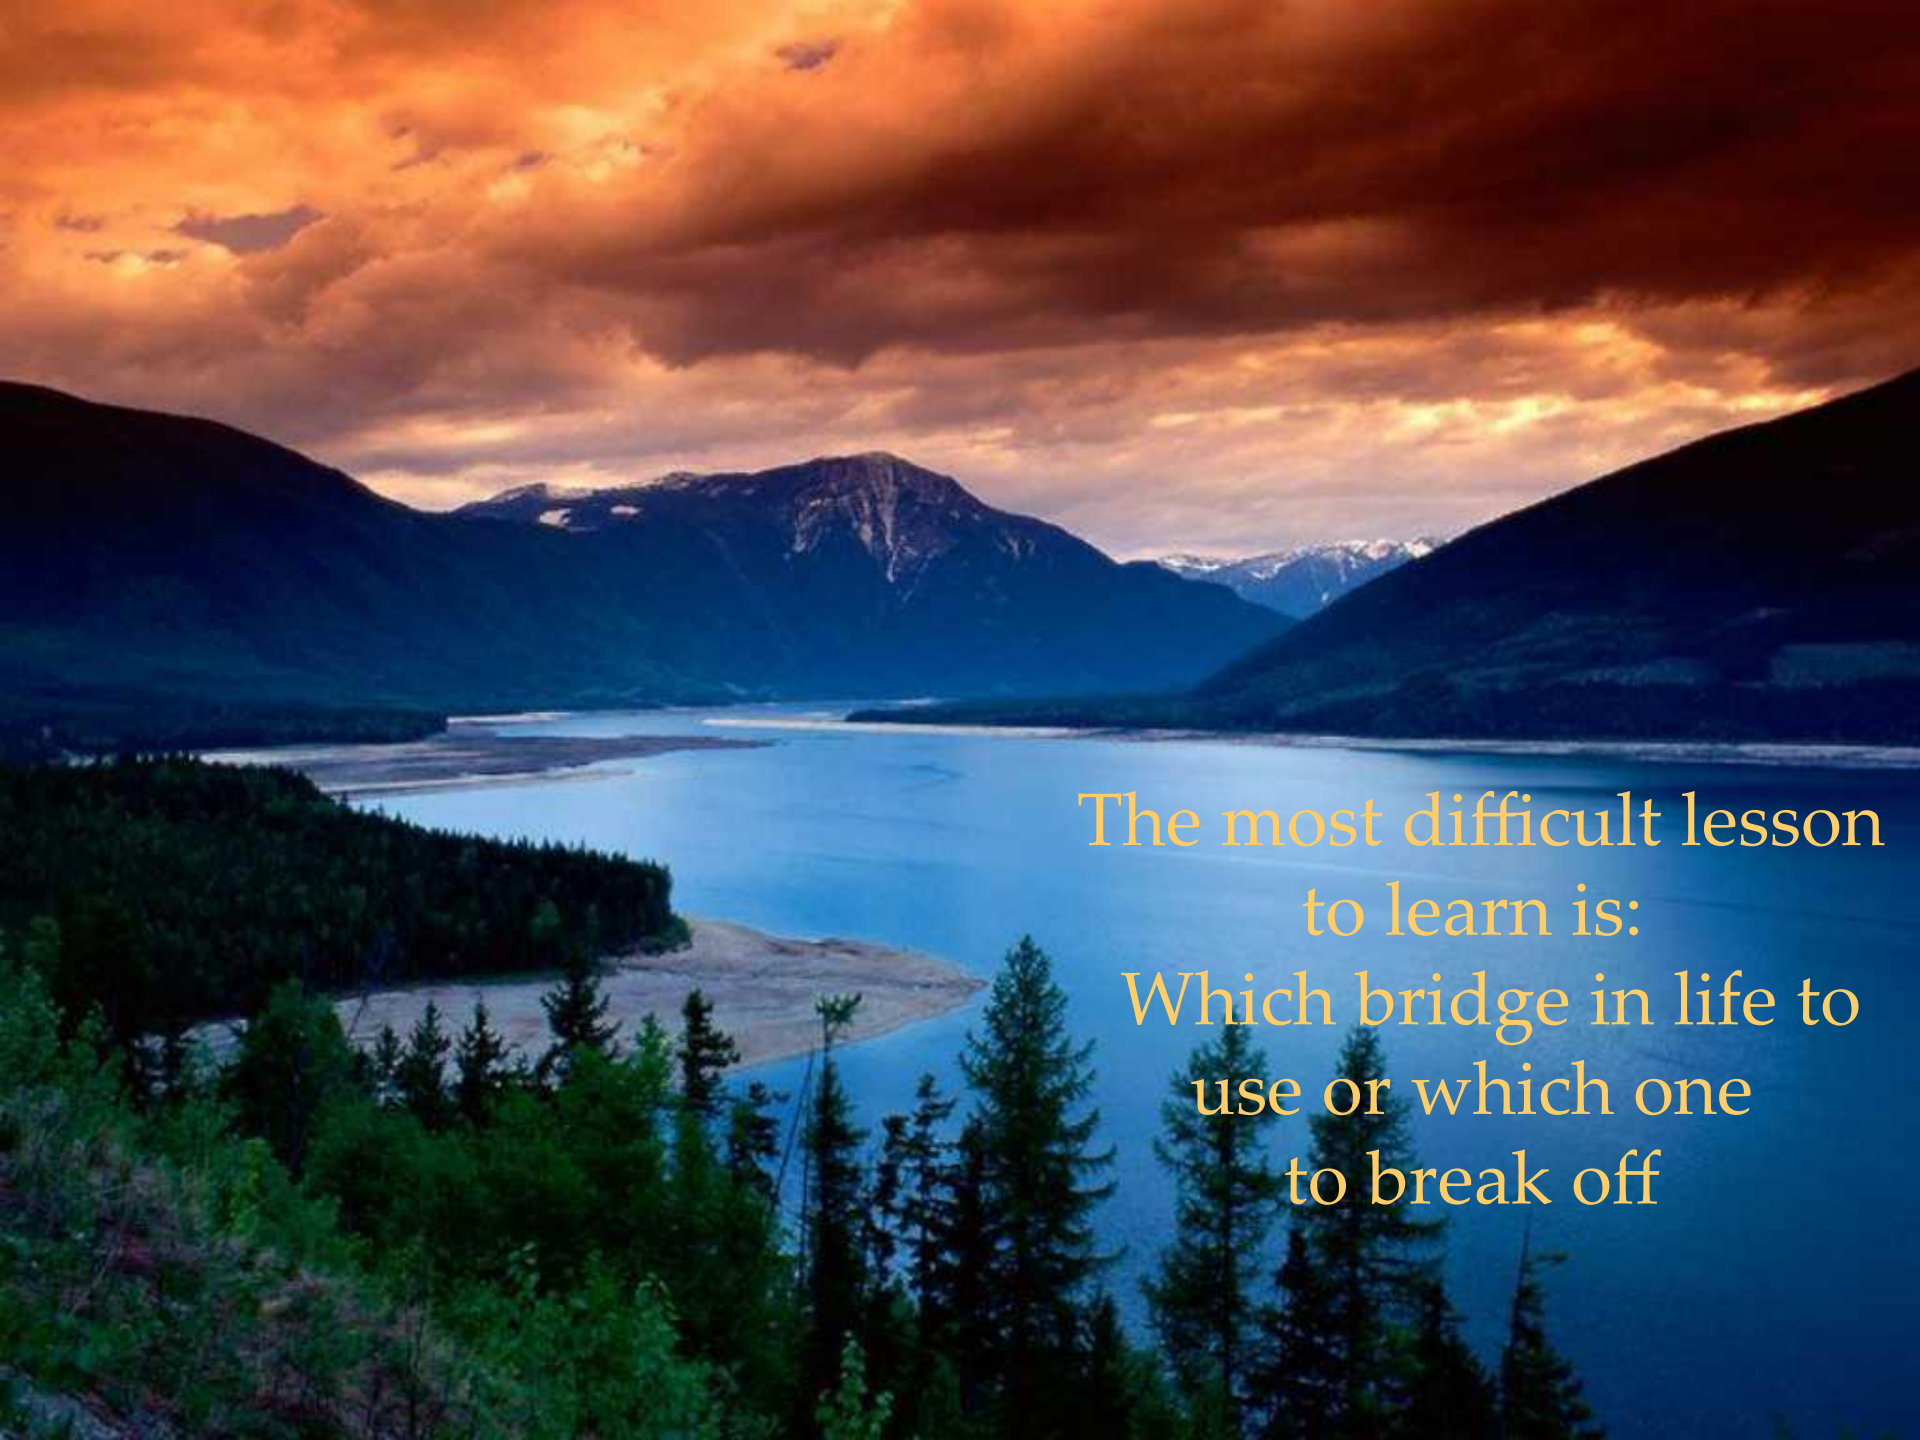

Don't make  
an effort  
because  
the best things  
happen,  
when you  
least expect  
them

A high-angle photograph of a rugged mountain peak, likely Mount Fuji, emerging from a thick layer of white clouds. The sky is a soft gradient of orange, yellow, and blue, suggesting the time is either dawn or dusk. The mountain's slopes are steep and rocky, with some patches of snow or light-colored rock visible near the summit. The clouds are dense and billowy, filling the lower two-thirds of the frame.

The greatest events,  
aren't the loudest,  
but the most quiet  
hours

The most difficult lesson  
to learn is:  
Which bridge in life to  
use or which one  
to break off

A photograph of a sharp, snow-covered mountain peak, likely Mount Everest, rising above a layer of clouds. The sky is a deep blue, and the clouds are bright white and fluffy. The mountain's peak is dark, possibly due to shadows or rock, contrasting with the white snow on its slopes.

Everybody sees how you seem,  
however, only some know who you are

He who would like to have something he never had,  
will have to do something well, that he hasn't done yet

Perhaps God would want you to become  
acquainted with many different people in the  
course of your life, so that when you meet  
the right ones,  
you can appreciate and be grateful for them

Give something a name,  
and it will happen

A dramatic landscape view from inside a cave looking out at a sunset over a desert canyon. The sun is low on the horizon, creating a bright orange glow and long shadows. The canyon walls are rugged and layered, with some prominent rock formations. The sky is a mix of orange and blue.

Love doesn't require  
two people look at each other,  
but  
that they look together  
in the same direction.

(Antoine de Saint Exupery)

Life is  
drawing  
without an eraser

I wish you always:

Air to breath,  
Fire to warm you,  
Water to drink and  
The earth to live in.

I wish this to you  
from my heart
