

Thyroid Essentials

Performed:
Nadya Egizbaeva
Student of the faculty
Of pharmacy

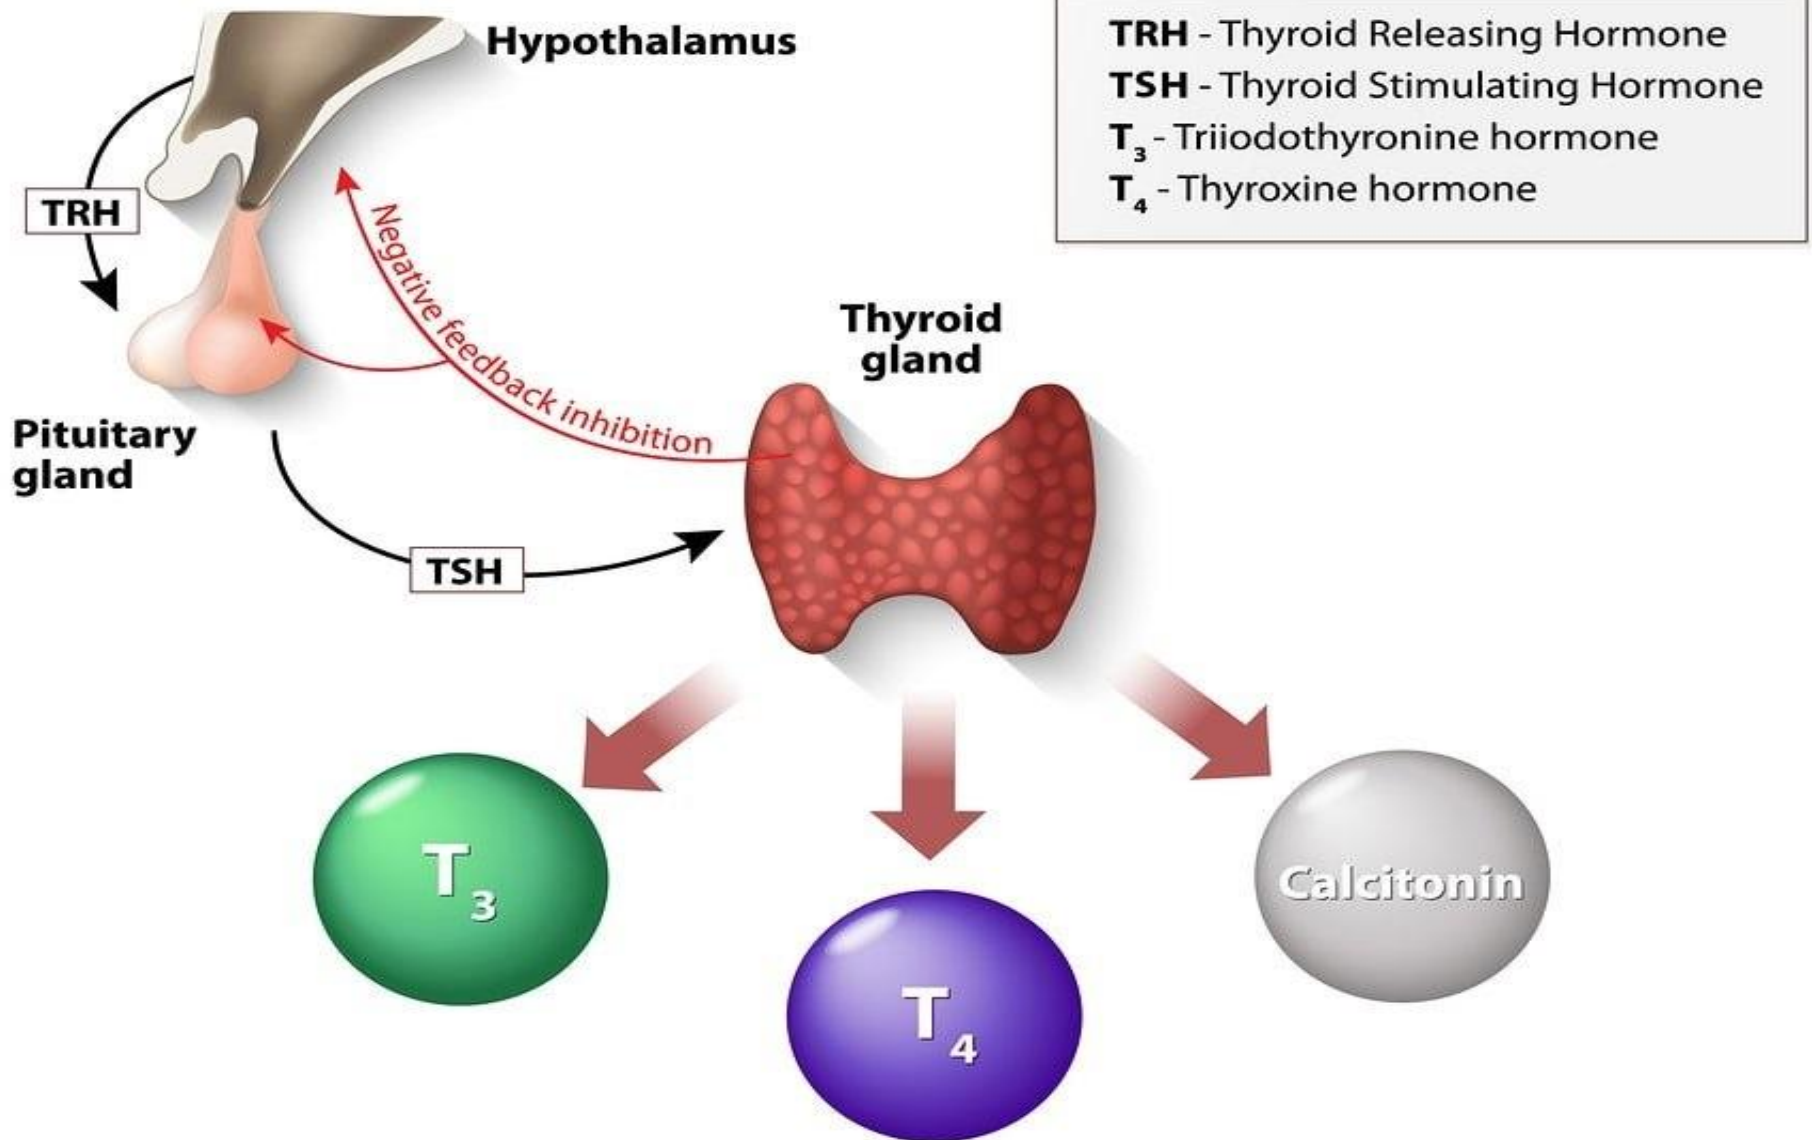

My presentation consists of 4 parts:

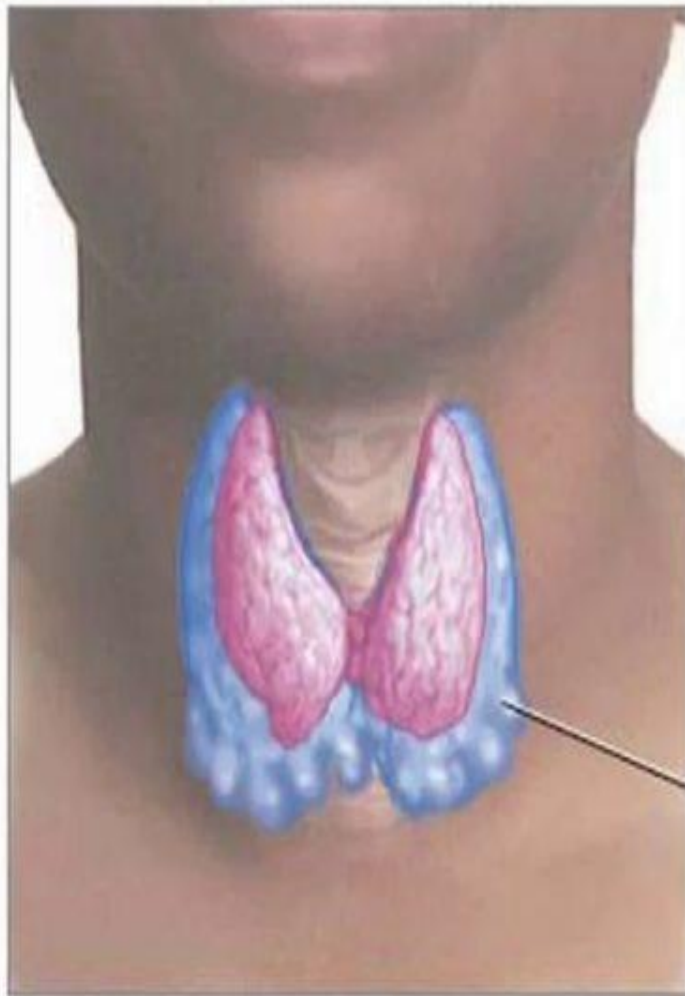

- The first part is the anatomy of the thyroid;
- The second part is hormones of the thyroid;
- The third part of diseases and disorders of the thyroid gland;
- The fourth part is the most common diseases of the thyroid gland.

Thyroid gland and Thyroid Hormones

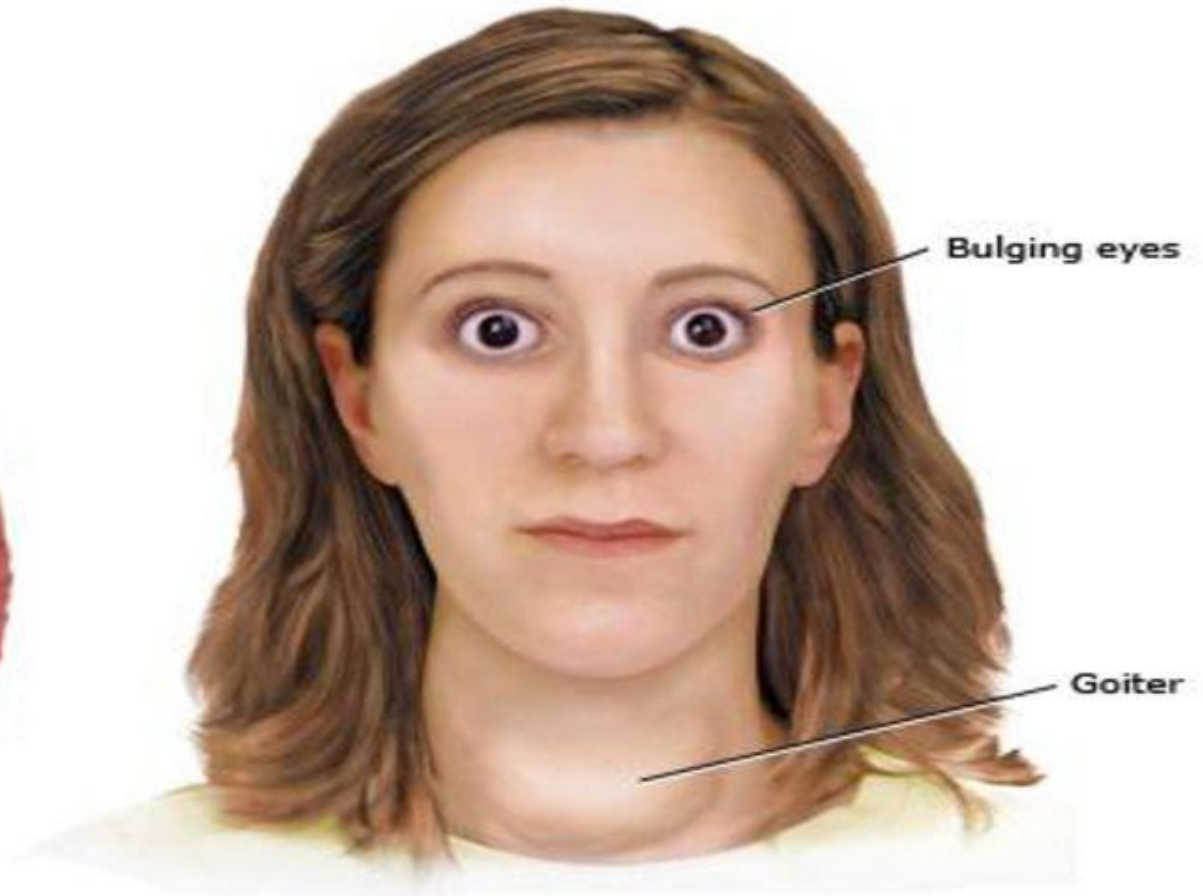

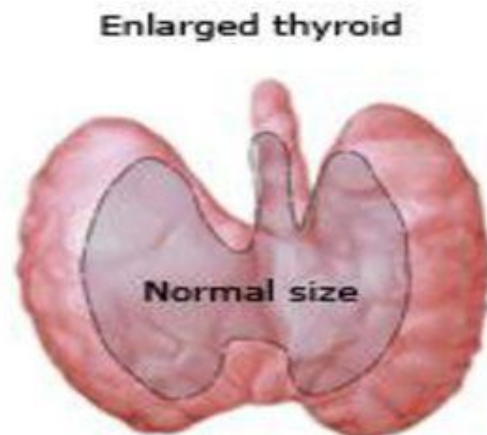

Hashimoto's disease

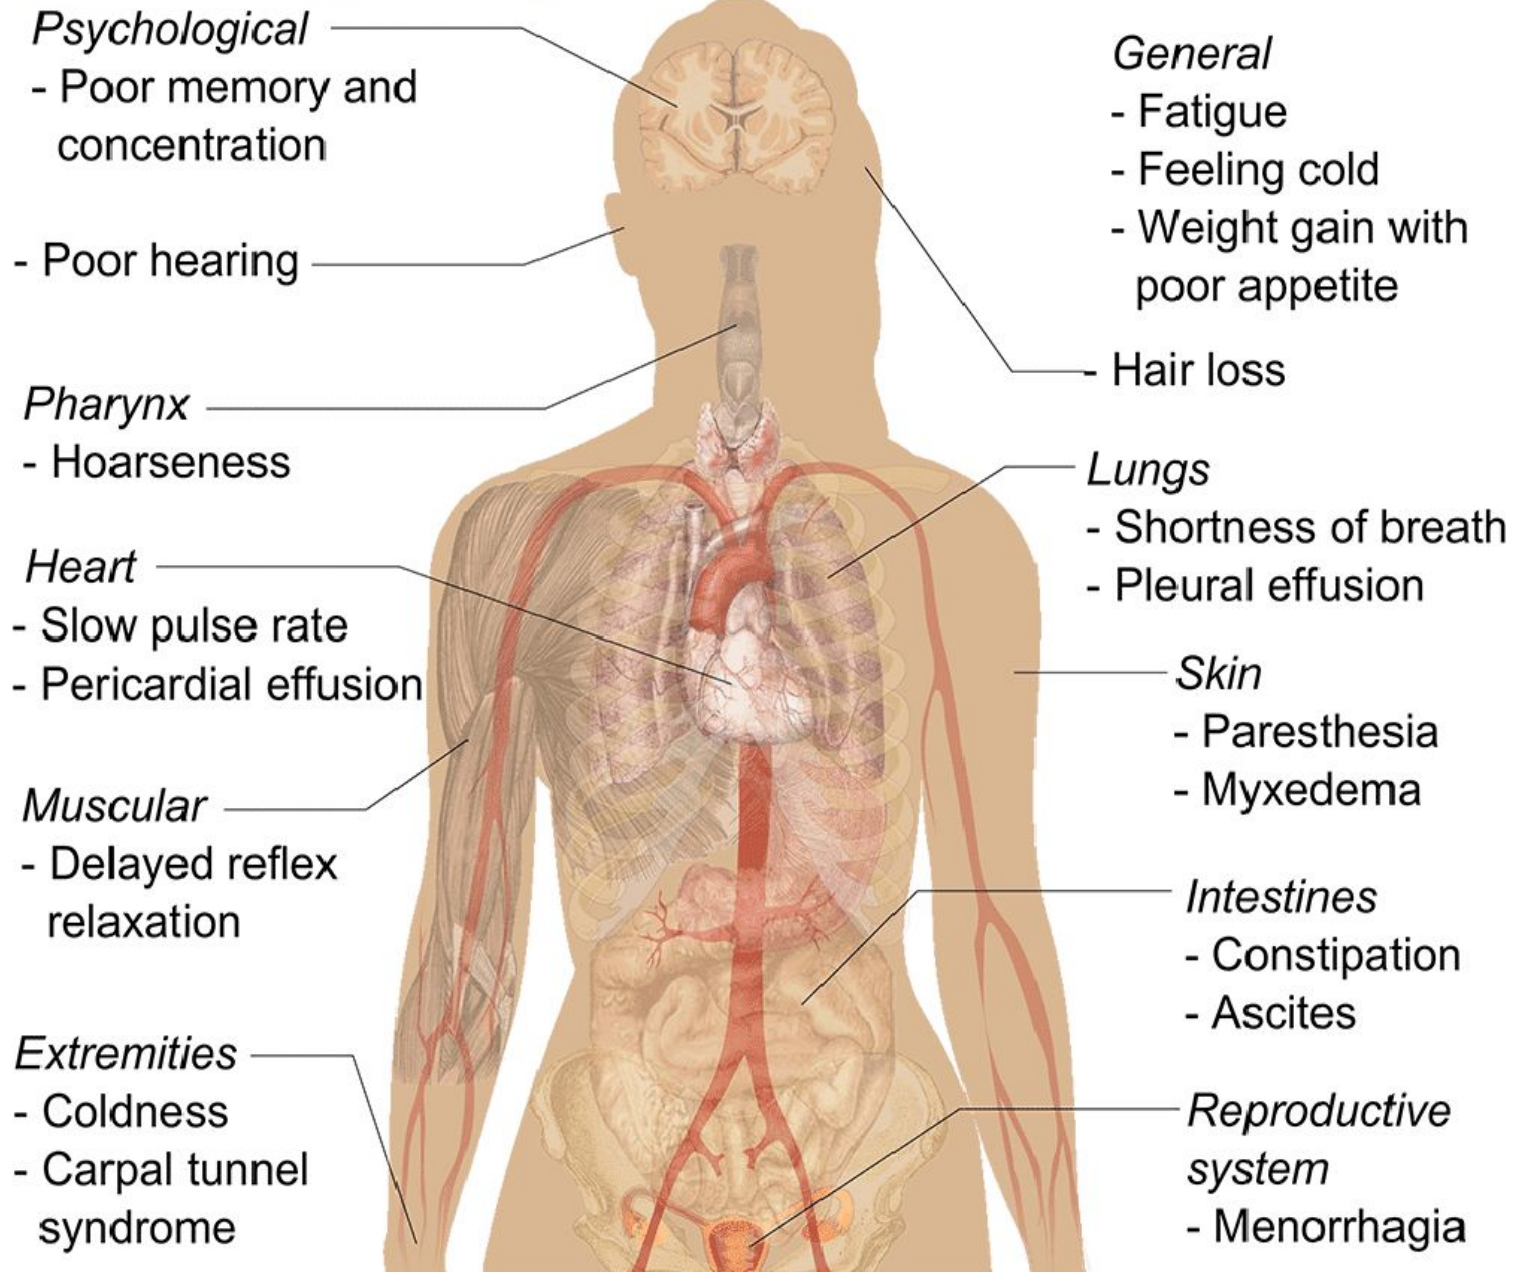

Enlarged, inflamed
hypofunctioning
thyroid (goiter)

Hyperthyroidism – Bulging eyes/ Exophthalmos

Symptoms of Hypothyroidism

Thyroid Cancer

Thyroid
cancer

Stage I

Stage II

Thanks for your attention

The background features a blue gradient with various white plus signs of different sizes and opacities. A faint grid pattern is visible, particularly on the right side where it transitions into a lighter, more vibrant blue area with a glowing effect.
