Receiving mail is ok, normal

Sending mail. The error message is shown as left

# Use PC Client

dsfa

This is mail which I am trying  
to send, but rejected

# Use website

The screenshot shows a web browser window with the Yandex Mail interface. The address bar shows the URL `mail.yandex.com/?uid=963583170#compose/170573835886657589`. The page title is "Yandex Mail". The left sidebar contains navigation options: Compose, Inbox, Sent, Trash, Spam, Drafts, Create folder, and Create label. The main content area is a compose window for an email to `bgpchad@gmail.com` from `liang.ggfz@yandex.com`. The subject is "test". The body text includes "FYI", "Sincerely", and contact information for Liang Deyong, Deputy Country Manager at Gulf Geophysics FZCO (BGP Intl), with a phone number and a website URL. A red text overlay reads "This is mail which I am trying to send, but rejected". A green circular progress indicator on the right shows "26%" and "4.5K/s". The bottom of the compose window shows a "Send" button, a "Remind me" button, and a "Notify me" button. The status bar at the bottom right indicates "Saved as draft at 10:55". The Windows taskbar at the bottom shows the time as 10:55 on 2019/10/16.

The screenshot shows a web browser window with the Yandex Mail interface. The address bar displays the URL `mail.yandex.com/?uid=963583170#compose/170573835886657589`. The page title is "Yandex Mail". The left sidebar contains navigation options: Compose, Inbox, Sent, Trash, Spam, Drafts (4), Create folder, and Create label. The main content area is a compose window for a message to `bgpchad@gmail.com` with the subject "test". The message body contains the text "FYI -- Sincerely" and contact information for Liang Deyong, Deputy Country Manager at Gulf Geophysics FZCO (BGP Inc.), including a phone number and a website URL. An error dialog box is overlaid on the message content, stating: "An error occurred. This message cannot be sent because it looks like spam. It's possible that you have sent too many messages today. Your ability to send messages will be restored in approximately 24 hours after you stop trying to send messages. More information about the causes of this error can be read [here](#)." A "Close" button is visible at the bottom of the error dialog. The bottom of the browser window shows the Windows taskbar with various application icons and the system clock displaying 10:57 on 2019/10/16.

This error windows comes every time when I try to send a mail.

- I am new user of fandex.com
- I registered on 14<sup>th</sup> Oct. 2019
- I am sure my computer has no virus. Because I changed 3 computers, but the problem is same.
- Till to now , I have not sent any email successfully.
