- THE INDIAN SCRIPTS

LES ÉCRITURES INDIENNES

- ПИСЬМЕННОСТИ ИНДИИ

- India is an unique country using many scripts. All of them except Arabic come from *Brahmi*, the old Indian script. The main symbols of these scripts called *Abugida* look like as *V* and *Ca*, where *V* means vowel, *C* – consonant. This project being creative as well as educational is dedicated to identically transliterated symbols comparison. The traditional symbols order is preserved. Some rare symbols and ligatures aren't included. Every page of symbols can be also considered as an “Indian scripts card”.
