Mike's summer holidays

I like summer holiday very much. I spent my summer holiday in the country. I rode a bike and took a lot of pictures of my friends. Also I picked berries and gathered mushrooms in the forest.

In July I went to the summer camp. I played football, took part in sport competitions and made many friends. In the evening we made a fire, played the guitar and sang songs.

In August I was at the seaside. I swam in the sea, lay in the sun, talked to friends and listened to the radio, read interesting books.

I had a good time in summer.
