

Verbs + infinitive

- 1) After a list of verbs (need, want, promise)

E.g I **need to buy** a new T-shirt for summer

If we make a negative sentence which starts with the verb

Promise not to tell it to your Mom
(We **don't use** here **do** or **does**)

After adjectives

e.g It'll be **great to go** to the café together

It'd be **good not to make** her feel sad

**After question words where, when, what,
how.. in sentences (not questions !)**

e.g I know **how** to get there

We're thinking **where** to go after the
quarantine

- To say why do or did something

e.g I **went** to Moscow  **to find** a new job

Why did you go to Moscow?

To find a new job (Now you can use this construction, not necessary to give a full answer)

- We never use the particle **TO** after do/does/did and most modal verbs (can, could, will, would etc.)
