The country has a simple but effective welfare system

1. Basic principles

We think there is no ideal thing in our world.
But we'll try to describe maximal effective
welfare state.

The social security system should be simple,
clear, eligibility and effective.

Welfare

- **Welfare** is a type of government support intended to ensure that members of a society can meet basic human needs such as food and shelter. **Social security** may either be synonymous with welfare, or refer specifically to social insurance programs, which provide support only to those who have previously contributed (e.g. most pension systems), as opposed to social assistance programs, which provide support on the basis of need alone (e.g. most disability benefits).

Efficient

- We use *efficient* to describe something or someone that works in a quick and organised way
- If something or someone is **efficient**, they are able to do tasks successfully, without wasting time or energy
- *The new online banking system offers a convenient and efficient way to check your account.*

The railways used to provide a cheap efficient method of travel

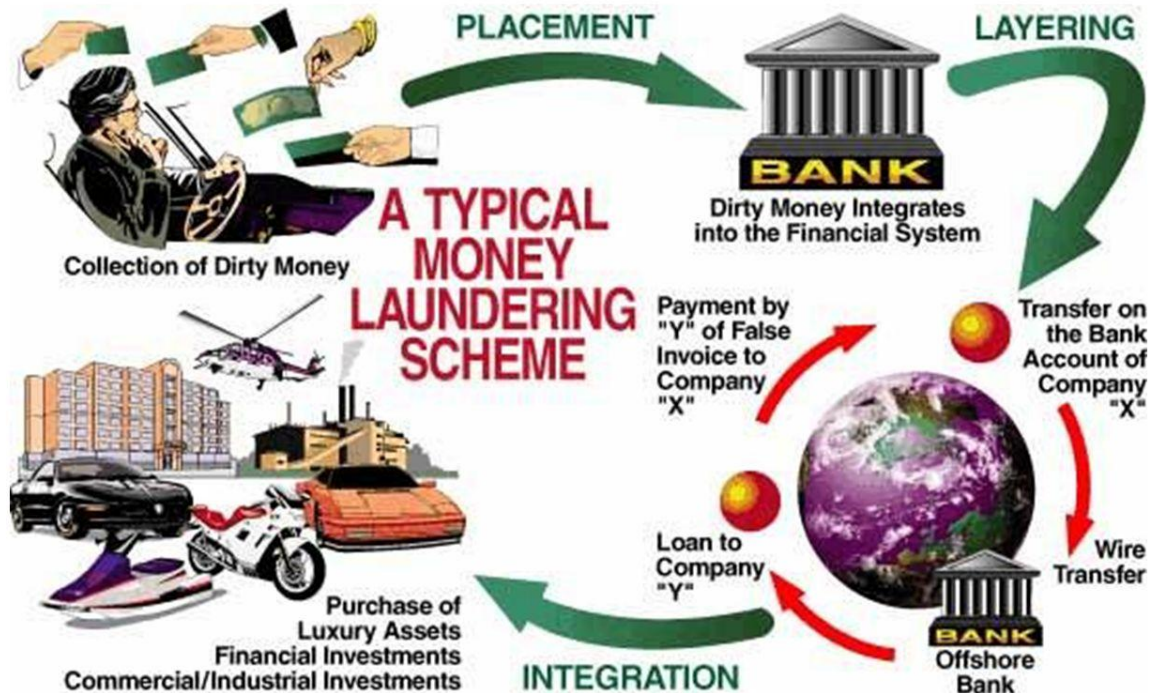

The tram is a very efficient means of transport.

Trams are a little slower than S- and U-bahn but also a very good means of transport in Munich. They give you excellent sights through the city. Wherever possible, they have a separate track and have priority over regular and cross roads which is managed by a sophisticated traffic control system. Also the frequency during rush hours is every 3-4 min. Some of them run the whole night
