

Lithuania at the glance

I've chosen this project because I want to show my country at the glance

What attracts Lithuania?

in fact, Lithuania is a country ideally describing Europe and the remnants of the Soviet Union. Lithuania once was in the USSR, There are still some houses there, Soviet cars drive, and in the houses you can find old “Rubin” TVs. Also in Lithuania old castles, churches and houses are still preserved, an excellent example is the Gediminas' Tower, it was founded in the 17th century and it did not fall apart, even now you can walk there and it has a beautiful view of Vilnius city.

Popular Attractions

I can't list all the sights, it is better to show the main ones that are worth a visit to an ordinary tourist.

1 is the national museum of Lithuania, it was founded in 1952 and it contains the entire history of Lithuania, from the beginning to the present.

2 Trakai castle located to the west of Vilnius. The castle, made in the Gothic style, turned from a fortress into an attraction where special buses carry.

3 mountain of crosses. According to legend, everyone who puts his cross there will be lucky for him. There are less and less places for crosses every year.

Vodka

There are many, many VODKA in Lithuania. Lithuanians love vodka, it's not strange that they are in 5th place among the most drinking countries. Most popular vodka in Lithuania is "Starka", "Starka" it's vodka with a touch of apple and linden. But that's not all, in Lithuania you can find sweets with vodka and bread with vodka! If you like vodka, come to Lithuania!

Weather in Lithuania.

Basically, Lithuania will not please you with pleasant weather. Mostly in Lithuania it is cool, cloudy and rainy. Unless in the summer in Lithuania there is warm weather, and that is not always the case.

Interesting Facts

1 In Lithuania, many people speak Russian, so knowledge of the English language may not be particularly useful to you. 2 in Lithuania there is a rain tax, it was introduced in Klaipeda, it applies to private houses, if people do not have a sewage system, then they pay a tax. 3 Stelmuzhsky oak, the oldest oak in Europe, stands in Lithuania. This oak is about 2000 years old.

Can I afford Lithuania?

Lithuania is not expensive tourism, you can live there for 2 days with 100 dollars (see "heads and tails"), but if you are not poor, you want to see beautiful castles, try high-quality vodka, just apply for a special visa and fly there for 7 hours.

Some photos

Some photos.

Thanks for your attention!

I hope you listened.
