Policlinic

Plan:

1. Polyclinic
2. Independent polyclinics
3. Composition of polyclinic

Policlinic

- Policlinic the treatment-and-prophylactic establishment intended for rendering extra hospital medical care to the population and carrying out a complex of the preventive actions directed on decrease in incidence.

Independent polyclinic

- In the country independent polyclinics, out-patient clinics (Out-patient clinic), children's polyclinics (Children's polyclinic), independent stomatologic polyclinic establishments, polyclinic offices of hospitals (see Hospital) and clinics function (see the Clinic). Besides, the student's P. intended for rendering the treatment-and-prophylactic help to pupils of the highest and average educational institutions, industrial P. for providing workers of several industrial enterprises with medical care, P. of the consulting and diagnostic help which are, as a rule, a part of regional and large city versatile hospitals will be organized.

Composition of polyclinic

- The office of prevention, treatment-and-prophylactic divisions, as a rule, are a part city P.: therapeutic offices, including an office for assistance to teenagers, therapeutic office, surgical office (office), centralized sterilizing, traumatologic office (office), an urological office, stomatologic office (offices therapeutic and surgical stomatology), dentoprosthetic office (office), ophthalmologic, otorinolaringologichesky, neurologic offices (offices), cardiological, rheumatologic, endocrinological offices, an office of infectious diseases, female consultation (in the absence of it as a part of maternity hospital), medical and medical assistant's Health centers, office (office) of recovery treatment, a day hospital.

Question

- 1. What types of polyclinics you know?
- 2. What is a part of polyclinic?
- 3. What doctors work in clinic?

- THANKS A LOT FOR YOUR ATTENTION!!!
