

HAMLET

- ▶ ***The Tragedy of Hamlet, Prince of Denmark***, often shortened to ***Hamlet*** (/ˈhæmlɪt/), is a tragedy written by William Shakespeare at an uncertain date between 1599 and 1602.
- ▶ *Hamlet* is Shakespeare's longest play and among the most powerful and influential tragedies in English literature, with a story capable of "seemingly endless retelling and adaptation by others."

TEXTS

- ▶ Early editors of Shakespeare's works, beginning with Nicholas Rowe (1709) and Lewis Theobald (1733), combined material from the two earliest sources of *Hamlet* available at the time, Q2 and F1. Each text contains material that the other lacks, with many minor differences in wording: scarcely 200 lines are identical in the two. Editors have combined them in an effort to create one "inclusive" text that reflects an imagined "ideal" of Shakespeare's original.

LANGUAGE

- Compared with language in a modern newspaper, magazine or popular novel, Shakespeare's language can strike contemporary readers as complex, elaborate and at times difficult to understand. Remarkably, it still works well enough in the theatre: audiences at the reconstruction of 'Shakespeare's Globe' in London, many of whom have never been to the theatre before, let alone to a play by Shakespeare, seem to have little difficulty grasping the play's action.
